Masculinity in the Golden Age of Swedish Cinema Tommy Gustafsson, 2014-10-30 Swedish society underwent great changes during the first decades of the 1900s and the new consumption and entertainment culture came under fire Children and youth but also women and the working classes become symbols of the forces breaking down traditional structures and values These groups were also identified as the principal audience for the new film medium Hence during the silent era film culture interacted with society at large filling the screen with contradictory images of diverging masculinities and gender ethnic relations In fact film culture became one of the most important arenas where new gender relations could be articulated This book covers Swedish film culture throughout the 1920s It is the first in depth exploration of Swedish silent film culture that goes beyond the small number of canonized films of the Swedish Golden Age that have been discussed as art for nearly 100 years The study is based on extensive research and takes all Swedish feature films produced in the 1920s into consideration together with a large number of source materials that include fan and trade magazines manuscripts censorship records government reports and some 900 film reviews

Part 1 William Lawes, 2002-01-01 xxxvi 91 pp *The Terrible Children of Modernity* Peter Sloterdijk, 2025-06-10 Peter Sloterdijk is among the most acclaimed and widely read philosophers of the past half century Called Germany's most controversial thinker by the New Yorker he has challenged and provoked readers worldwide with extraordinarily ambitious and wide ranging works of philosophical and cultural critique In *The Terrible Children of Modernity* Sloterdijk offers a magisterial and profound investigation into the vicissitudes of historical change and the nature of modernity For Sloterdijk modernity is defined by its need to break with the past Moderns are perpetual rebels who seek to sever the ties of tradition and forms of inheritance that bind generations and eras together With deep philosophical historical and literary range he traces this antigenealogical experiment from the French Revolution onward from Madame de Pompadour and Napoleon through Nietzsche Marx Wagner the Dadaists and Deleuze Acutely aware of the destructive potential of cultural discontinuities Sloterdijk is no less critical of the fathers who condemn change than the terrible children who seek a drastic rupture with their predecessors Equally concerned with the grand sweep of history and our current predicaments he instead calls for new ways to live together in the intersubjectivity of the human condition Incisive and daring breathtaking in its scope this account of youthful rebellion against tradition asks us to reimagine the ethics of genealogy **The American Dictionary and Cyclopedia** Robert Hunter, 1900 **How Zen Became Zen** Morten Schlutter, 2010-04-30 How Zen Became Zen takes a novel approach to understanding one of the most crucial developments in Zen Buddhism the dispute over the nature of enlightenment that erupted within the Chinese Chan Zen school in the twelfth century The famous Linji Rin'ai Chan master Dahui Zonggao 1089-1163 railed against heretical silent illumination Chan and strongly advocated kanhua koan meditation as an antidote In this fascinating study Morten Schlutter shows that Dahui's target was the Caodong Soto Chan tradition that had been revived and reinvented in the early twelfth century and that silent meditation was an approach to practice and enlightenment that originated within this new Chan tradition Schlutter has written a refreshingly accessible account of the intricacies of the dispute which is still reverberating through modern Zen in both Asia and the West Dahui and his opponents' arguments for their respective positions come across in this book in as earnest and relevant a manner as they must have seemed almost nine hundred years ago Although much of the book is devoted to illuminating the doctrinal and soteriological issues behind the enlightenment dispute Schlutter makes the case that the dispute must be understood in the context of government policies toward Buddhism economic factors and social changes He analyzes the remarkable ascent of Chan during the first centuries of the Song dynasty when it became the dominant form of elite monastic Buddhism and demonstrates that secular educated elites came to control the critical transmission from master to disciple procreation as Schlutter terms it in the Chan School Tragic Realism and Modern Society John Orr, 1989-02-25 A critical study which discusses passion and community as the central structures of feeling in tragic realism tracing their origins in Stendhal Tolstoy and Dostoevsky and explaining their contemporary eclipse in Western society *Educational Film Catalog*
