A comparative study of elite English-medium schools, public schools, and Islamic madaris in contemporary Pakistan Akhtar Hassan Malik,2015-04-12 This ethnographic study examines the role of differing school knowledge in reproducing various social classes in the society It was observed that an unequal availability of capital resources agents class habitus and the type of their cultural currency act as selection mechanisms that clearly favour some social groups over others The ruling classes ensure the transfer of their power and privilege to their children by providing them with quality education in elite schools The disadvantaged classes are excluded from these unique institutions by both social and economic sanctions They have no other option than to educate their children either in public schools or Islamic madaris As a result inequitable educational opportunities consolidate the existing social class hierarchy

CURRICULUM REFORM IN PAKISTAN Amna Afreen,2022-02-25 I have written this book in an effort to explore how the history of Pakistan has resulted in the critical problems weighing down its education system The book examines the questions Why and how has a small elite class come to rule Pakistan And how has their rule worsened the country s problems The focus will be to critically examine the elements of the Pakistani national curriculum and madrasas and their effects on Pakistani society The book represents the fusion of my experiences in Pakistan with extensive literature analysis interviews and textbook analysis This research began when I came to the United States in January 2015 through the SAR program I wanted to know the answers to profoundly unsettling questions How can a society be so intolerant that a scholar educated

solely in Pakistan is disregarded and assassinated while many Western educated scholars with traditional insular thoughts are not only appreciated but flourishing I wanted to know why Pakistani elites have so much power and freedom while lower classes are profoundly oppressed Elites who barely pay taxes have been in power for generations while those that pay taxes suffer from sky high inflation The influential religious leaders mostly belong to the elite class while their followers are mostly lower class Ruling families and social classes mostly control appointed positions Do those in power not have a responsibility to speak on issues of social justice rather than limiting themselves in claiming that theirs is the only true form of Islam Why don't they work to end the disparity of quality education between classes in Pakistan Instead many elites run their own lucrative elite Islamic schools More importantly why do the ulama which literally means those who possess knowledge ilm particularly of Islam maintain a tight hierarchical system in the madrasa Islamic seminary community that rarely allows poor intelligent students to attain leadership positions Why are the ulama silent in the face of ruthless murder of and discrimination against Pakistani minorities Book Review Pakistan Educational Reforms is a major study of education in Pakistan and its national and madrasa curriculum that fosters national and religious sectarian divisions intolerance and conflicts Dr Amna Afreen documents the political socio economic and religious causes limited government funding widespread poverty and illiteracy and the poor training and performance of teachers that have produced a failed educational system at urban and rural government and religious schools madrasa and offers a series of potential solutions and reforms John L Esposito University Professor and Founding Director of The Alwaleed Center for Muslim Christian Understanding Georgetown University *Index to Overhead Transparencies* National Information Center for Educational Media, 1975

Discovery Problems in Biology Grace Bagby, 1943 *The Man Who Knew Infinity* Robert Kanigel, 2016-04-26 A biography of the Indian mathematician Srinivasa Ramanujan The book gives a detailed account of his upbringing in India his mathematical achievements and his mathematical collaboration with English mathematician G H Hardy The book also reviews the life of Hardy and the academic culture of Cambridge University during the early twentieth century **A Frog Under the Tongue** Marek Tuszewicki, 2021-03-05 Winner of the 2021 Gierowski Shmeruk Prize Shortlisted for the Folklore Society's Katharine Briggs Award 2021 Jews have been active participants in shaping the healing practices of the communities of eastern Europe Their approach largely combined the ideas of traditional Ashkenazi culture with the heritage of medieval and early modern medicine Holy rabbis and faith healers as well as Jewish barbers innkeepers and pedlars all dispensed cures purveyed folk remedies for different ailments and gave hope to the sick and their families based on kabbalah numerology prayer and magical Hebrew formulas Nevertheless as new sources of knowledge penetrated the traditional world modern medical ideas gained widespread support Jews became court physicians to the nobility and when the universities were opened up to them many also qualified as doctors At every stage medicine proved an important field for cross cultural contacts Jewish historians and scholars of folk medicine alike will discover here fascinating sources never

previously explored manuscripts printed publications and memoirs in Yiddish and Hebrew but also in Polish English German Russian and Ukrainian Marek Tuszewicki s careful study of these documents has teased out therapeutic advice recipes magical incantations kabbalistic methods and practical techniques together with the ethical considerations that such approaches entailed His research fills a gap in the study of folk medicine in eastern Europe shedding light on little known aspects of Ashkenazi culture and on how the need to treat sickness brought Jews and their neighbours together
