

Instructions: Refer to CNO's [Quality Assurance: Your Guide to Self-Assessment](#) for information and examples that will help you complete your Learning Plan.

1. Reflect on your practice

Refer to CNO's [Practice Reflection questions](#) to help you think about your experiences and identify areas of your practice that need professional development.

Watch: [How to become a reflective practitioner](#) for guidance on how to reflect.

2. Identify your learning needs

What learning needs have you identified in your practice reflection? You may want to talk with a peer(s) or colleague(s) about your practice to help you identify these areas.

Consider the following:

- What areas in your nursing practice need further development?
- How will addressing your learning needs help you improve your nursing practice?

3. Define your learning goals

Now that you know your learning needs, identify two specific learning goals based on those needs.

When defining your learning goals, consider the following:

- What changes in your practice do you expect to see?
- Are your goals realistic?
- Have you set a timeline to reach your goal?

Watch: [Are your learning goals SMART?](#) to enhance your learning goals.

4. Link your goals

What principles of the [Code of Conduct](#) do your goals align with?

- Principle 1: Nurses respect the dignity of patients and treat them as individuals.
- Principle 2: Nurses work together to promote patient well-being.
- Principle 3: Nurses maintain patients' trust by providing safe and competent care.
- Principle 4: Nurses work respectfully with colleagues to best meet patients' needs.
- Principle 5: Nurses act with integrity to maintain patients' trust.
- Principle 6: Nurses maintain public confidence in the nursing profession.

5. Describe your learning activities

Describe the learning activities you plan to complete to achieve your learning goals. Indicate a timeline for each activity to help you stay on track.

Consider the following:

- What resources will you need?
- What is your learning style (e.g., visual, auditory etc.)?

6. Reflect on your plan

Use this section to reflect on your Learning Plan and evaluate changes to your practice.

Consider the following:

- Did you achieve your learning goal?
- If yes, what changes did you make to your practice as a result?
- If no, what prevented you from achieving them?

Foundations of Nursing Practice Chris Brooker, Anne Waugh, 2013-01-08. This second edition of *Foundations of Nursing Practice* has been revised and updated specifically to meet the needs of nursing students in all fields of practice. The book explains how and why sensitive, safe, evidence-based, holistic nursing care is carried out, including topics common to all fields of practice. Core nursing skills are emphasised to reflect the importance of clinical skills as well as the underpinning theory. Aids to learning in each chapter, Learning outcomes, Interactive boxes for all age groups and fields of nursing practice, Key words and phrases for literature searching, Useful websites, references, and further reading. This book provides a comprehensive introduction to nursing that will meet the needs of students, nurses returning to practice, mentors, and other registered nurses. Relevant to all branches of nursing settings: infants, children, adults, pregnant women, older people, and people with a learning disability or mental health problems. Themes relevant to all stages and fields of nursing practice include safety, infection prevention and control, managing stress, communication, managing wounds and pressure ulcers, and dealing with loss. Scenarios develop the skills of evidence-based practice, critical thinking, reflection, and health promotion and encourage further learning. The areas of psychology, sociology, physiology, and pathology are clearly related to nursing practice. Key principles of health promotion, the law, and ethics, the human lifespan, and development are explained in earlier chapters then applied in later chapters. Cultural diversity information helps with understanding the needs of people from different backgrounds. Person-centred approach encourages problem-solving and application to practice. Evidence-based practice is explicit throughout, and best practice guidelines underpin exploration and explanation of nursing care. Easy reference. Glossary at the back of the book. Meets the requirements of the new pre-registration nursing curriculum, including the NMC 2010 competencies and Essential Skills Clusters. Greater emphasis on safeguarding vulnerable people, maternal health, and first aid. Self-test questions with answers available on accompanying website.

Strategy-Driven Leadership Michael A.

Couch, Richard S. Citrin, 2019-10-14 It is estimated that U.S. companies spend over 14 billion annually on leadership development. Match that number to the abundant and growing research that finds most leadership development to be ineffective and the conclusion is a phenomenal amount of waste. The remedy for this situation is to have business strategy drive leadership development instead of creating programs that match a one size fits all approach to leadership. This book's approach called Strategy Driven Leadership Development (SDLD) puts business strategy first. It maintains an emphasis on building leadership programs around what it will take to make the business successful as opposed to implementing a program in the hopes that it will benefit the strategy. The result is a differentiated and targeted approach called Intentional Leadership Development which provides the structure for transforming how leadership development is undertaken. At the heart of this book however is the explanation of how small incremental changes in action and perspective create meaningful changes in the way leadership is developed. The focus is on the leadership behaviors associated with success for any company. Some companies may need leaders with better financial acumen while others may require better teamwork for success. These skills are learnable and when the energy of an organization is behind it then leadership development can be transformational. The authors' method retools prior leadership efforts; the emphasis is not on previous failures and restarting with new programs. There are many effective ideas and actions that are currently embedded in leadership programs but they miss the critical element of tying their efforts to the business strategy. Strategy Driven Leadership changes the way organizations think about and drive their leadership talent initiatives among their current and upcoming leaders. The book is filled with research, science based information, case studies, and practical hands on tools on why and how this Strategy Driven Leadership Development model will transform company leadership approaches. Teaching Leadership Gama

Perruci, Sadhana Warty Hall, 2018-07-27 We can teach leadership. The authors share their personal experiences of how they have bridged theory and practice in curricular and co-curricular settings to set the pace and tone for leadership development and life long learning. Starting from theories of leadership they share how it can be taught with rigor, intentionality, structure, and organization. Assessment is key from conception to implementation. Scholars, educators, and practitioners from different fields and professions are invited to adjust, adopt, and adapt concepts, ideas, methods, and processes discussed in this book to their own institutional contexts and reality. Smart Work (2nd Edition) Lucy D. Freedman, 2012-11 Freedman demonstrates to today's corporate managers and high tech professionals that the seemingly chaotic world of corporate communication actually has a structure and that the structure or syntax can be decoded and used to one's advantage. **School**
