Beyond Obsolete Chris Edwards,2018-12-21 Americans have seen it all in education over the last twenty years charter schools vouchers private schools ever changing sets of technology increased funding for schools decreased funding for schools accountability measures for teachers and on and on These schemes never seem to make any real changes in student outcomes This is because the obsolete educational system is simply not compatible with what we now know about how

students learn and how teachers are developed and sustained Beyond Obsolete How to Upgrade Classroom Practice and School Structure delves into the history of Western Civilization shows how a misunderstanding of this history informs our current educational system and then makes a broad argument for a full scale upgrade in teacher practice the software and school structure the hardware If educational reform is to be achieved then superintendents assistant superintendents principals assistant principals etc will have to be declared obsolete Education will have to move beyond them into a new era where teachers are the educational leaders in their field and their classroom practice is compatible with learning theory
