So she tries to hide this fact but when a couple of male escorts make her acquaintance, some secrets will tend to come out in the end. Only a decent night's sleep stands between her and a descent into a very deep hole. All in all, she'll be a lucky lady indeed to come out of it alive. **Sleepyhead**

Shares a Secret Maureen Reil, 2011 The Sleepyhead's Bedside Companion Sean Coughlan, 2010-01-26 This is a quirky, amusing, information-packed book for all lovers of sleep. It's a celebration of nature's greatest free gift, the perfect companion for the bedside table. It's the book to curl up with before falling asleep. It looks at the history, culture, folklore, language and science of sleep. Did you know that the siesta was once a British tradition? Why do we say sleep like a top? Does counting sheep work? What are the very best sleeps? Who invented pyjamas? If dogs sleep so much, why are they always yawning? What are the best films about sleep? Do today's children have less sleep than Edwardian children? Does booze help or hinder sleep? Not only is sleep a great natural pleasure, it's also essential to good health. The book examines how a lack of sleep is increasingly seen as a health risk. Sleep is also the place of dreams and nightmares. Why are so many dreams the same and what are the archetypal recurring dreams? What is the origin of the word nightmare? And what do Bugs Bunny, the surrealists and Freud have to do with dreaming? Sleep is there to be enjoyed. It's not worth getting into bed for anything else. **Harlequin**

Should you confess up front that you're already married before the cameras are in your face and risk losing him because you never meant to lie but you never mentioned it either? On the other hand, try to avoid being alone with him ever again so that he will not get the opportunity to ambush you with a surprise engagement ring. Comical Vacations 3 Three Book Bundle Contents The Finch Family Easter Holiday 6 Let the good times roll since Kitty is

excited to be going away for four fun filled days on their first of many and hopefully not the last Finch family holidays together with her boyfriend for a short stay in a quaint B B in Scotland Where she hopes they will get to spend some time alone as well as with the rest of the clan Well she would be more excited if she could shake the damn stomach bug she seems to have picked up probably from work Only it will not stop her going for the Easter celebration up in the Highlands where real men wear kilts and women wear a shoe size twelve if Moira is anything to go by Whether it is a haunting by a ghost in the guesthouse or hunting for Nessie and the lost buried gold coins connected to Bonnie Prince Charlie or seeking the precious playing card belonging to her brother then you can be sure that Kitty will give it her all even if it costs her more than her dignity in the end There is also a secret to keep a secret to reveal and a secret admirer to deal with Not to forget there is also a beast on the prowl As this mini vacation has plenty of cringe worthy situations and surprises galore to cope with but Kitty has survived worse believe you me The Finch Family Bank Holiday 7 Now normally Kitty Finch loves a good wedding so she was happy to head down to Berkshire with the rest of the Finches to stay at a farm over the long bank holiday weekend She saw it as a chance to be in a famously posh romantic setting with her ex since Kitty wants to rekindle their relationship I mean who does not fall in love with love when surrounded by so much joy sentiment and happiness but not when she finds out he is bringing a plus one and she is feeling fat or should that state be fatter than usual because of her pregnancy If Kitty was under the impression that she could hide at the back to avoid not just the camera lens but also her exes then she had better think again When an accident occurs and Kitty has to step into someone else s shoes but not with her swollen feet so thankfully she gets to wear her own footwear in the end however it still doesn t help her walk down that aisle any better Joining Kitty and company in this hilarious mix of mayhem and merriment are a baby doll naked butlers and a male escort There are also a whole lot of laughs along the way so what more can anyone ask for from a British bank holiday The Finch Family Christmas Holiday 8 This is it folks the final Finch family holiday in the Comical Vacations series nine books in total It finds Kitty Finch heading off for a Christmas break with some of her family past and present plus picking up a friend or two along the way This time they are going on a Nordic liner for a mini Christmas cruise so they are all looking forward to this trip as long as it does not sink Well knowing her luck they could all end up at the bottom of the sea if this were any other kind of novel Only that is not a very happy ending so she feels confident that they will make it back to dry land and they do Not before there is upset all round of course and a stupid bet to win first whilst the pranks soon become the bane of her life After which they embark on the next leg of their journey to travel up to the north of Norway for an ice filled fun treat When staying at the snow hotel and getting to see and try things that they have never tried or seen before Will Kitty ever get the love she deserves Should she even have attempted to win a silly wager Can this British family ever have at least one lousy holiday without everything going tits up for Kitty Finch Would Kitty be able to claim she truly had the time of her life or would she be lying through her gritted teeth **Let's Get Together** Maureen Reil,2013-04-23 Jodi Spears is fast

approaching her thirtieth birthday but it is not a date that she is looking forward to anymore Since her world was turned upside down and rocked to its very core when her husband decided to jump off a cliff instead of staying with her to deal with the crippling debts that he had gotten himself into that were unbeknownst to her at the time She lost everything as a result when the business went bankrupt and this included her home so she now lives in her car in between house sitting jobs and uses her wages to pay what she can off the money still owed The latest abode where her boss at the agency sends her to is on a cliff top which unfortunately for Jodi is very similar to the one which had claimed the life of her late husband As her drinking increases so does her growing attraction for a hunky guy that she met called Reece and at last things are starting to look up as Jodi sees a light at the end of the dark tunnel she has been trapped in for nine long hard months However it is never going to be that easy for Jodi seeing as she suddenly gets a blast from the past walking right back into her life and nothing will ever be the same again

Simple Steps to Data Encryption Peter Loshin,2013-04-30 Everyone wants privacy and security online something that most computer users have more or less given up on as far as their personal data is concerned There is no shortage of good encryption software and no shortage of books articles and essays that purport to be about how to use it Yet there is precious little for ordinary users who want just enough information about encryption to use it safely and securely and appropriately WITHOUT having to become experts in cryptography Data encryption is a powerful tool if used properly Encryption turns ordinary readable data into what looks like gibberish but gibberish that only the end user can turn back into readable data again The difficulty of encryption has much to do with deciding what kinds of threats one needs to protect against and then using the proper tool in the correct way It s kind of like a manual transmission in a car learning to drive with one is easy learning to build one is hard The goal of this title is to present just enough for an average reader to begin protecting his or her data immediately Books and articles currently available about encryption start out with statistics and reports on the costs of data loss and quickly get bogged down in cryptographic theory and jargon followed by attempts to comprehensively list all the latest and greatest tools and techniques After step by step walkthroughs of the download and install process there s precious little room left for what most readers really want how to encrypt a thumb drive or email message or digitally sign a data file There are terabytes of content that explain how cryptography works why it s important and all the different pieces of software that can be used to do it there is precious little content available that couples concrete threats to data with explicit responses to those threats This title fills that niche By reading this title readers will be provided with a step by step hands on guide that includes Simple descriptions of actual threat scenarios Simple step by step instructions for securing data How to use open source time proven and peer reviewed cryptographic software Easy to follow tips for safer computing Unbiased and platform independent coverage of encryption tools and techniques Simple descriptions of actual threat scenarios Simple step by step instructions for securing data How to use open source time proven and peer reviewed cryptographic software Easy to follow tips for safer computing Unbiased and platform independent coverage of encryption tools and techniques
