The outbreak of the Coronavirus in early 2020 resulted in unprecedented changes to health professions education The
pervasive stay at home orders resulted in faculty who were trained for preparing the next generation of health professionals
in a traditional learning environment throwing out their lesson plans and starting anew New approaches to teaching and
learning were created quickly and without the typical extensive planning which introduced several challenges However
lessons learned from these approaches have also resulted in increased technology adoption innovative assessment strategies
and increased creativity in the learning environment The Handbook of Research on Updating and Innovating Health
Professions Education Post Pandemic Perspectives explores the various teaching and learning strategies utilized during the
pandemic and the innovative approaches implemented to evaluate student learning outcomes and best practices in non
traditional academic situations and environments The chapters focus specifically on lessons learned and best practices in
health professions education and the innovative and exciting changes that occurred particularly with the adoption and
implementation of technology It provides resources and strategies that can be implemented into the current educational
environments and into the future This book is ideal for inservice and preservice teachers administrators teacher educators
