Theology which though often excluded when discussing the work provides a snapshot of Paine's focus Thomas Paine was a political activist in both England and America active in the eighteenth and nineteenth centuries He is known for following and promoting Deism Deists believed that the Christian Church was corrupt bent on seizing political power Originally published in three parts The Age of Reason became a bestseller in the United States It wasn't as popular in England however because of fears following the French Revolution The main title of the work stems from Paine's desire that his readers should replace revelation with reason He didn't believe in miracles and thought of the Bible as nothing more than a literary work Previously Paine had written many works in praise of Deism but they were only available to an elite group who had a certain level of education and wealth Paine's style in The Age of Reason was more accessible to the public Not only was the style more accessible but also the book itself was less expensive than many of his previous works on the topic Historically when part I of The Age of Reason was published the French Revolution had caused a wave of disillusionment among the masses The Reign of Terror was well under way and Louis XVI and Marie Antoinette had already been executed Britain and France were at war and anyone in Britain still supporting the French Revolution was untrustworthy Thomas Paine because of works such as The Age of Reason fell into that category Paine's works led to his fleeing England to set sail for France specifically part II of Rights of Man led to this move after it was declared seditious There he wrote the first part of The Age of Reason in response to the secularism and atheism that had gripped the French Revolution Despite the fact that the French inspired this work Paine dedicated it to his Fellow Citizens of the United States of America France didn't prove a safe haven for him either he was imprisoned there for ten months because the Jacobins thought him too moderate He was nearly executed by guillotine but managed to escape that fate After his release and despite poor health Paine began work on part II of The Age of Reason Following the success of part II Paine left France for the United States where he wrote part III titled The Age of Reason An Examination of the Passages in the New Testament Quotes from the Old and Called Prophecies Concerning Jesus Christ Thomas Jefferson convinced him not to publish this third part in 1802 but Paine did so anyway five years later Part I of The Age of Reason outlines Paine's own beliefs He writes that he believes in one God and the equality of man He believes that one's religious duties require justice mercy and making others happy He goes on to say that he doesn't believe in the creeds professed by any church and that his mind is his church all other churches that he knows of are devices created by man to enslave others while monopolizing power to turn a profit He then attacks revelation According to Paine the fact that a revelation can only be confirmed by the one who experienced it is insufficient evidence for its truth and God's existence Because he believes in a creator God Paine urges his readers to rely instead on reason and look to the natural world for evidence of God's existence The Age of Reason continues to use the Bible's words against itself Paine examines the book as a work of literature and nothing more testing its consistency and finding it wanting He also tests its historical accuracy and determines the book was not inspired by the divine Paine turns his discussion toward religion and the state highlighting the

The Age of Reason Annotated And Illustrated Book With Teacher Edition Thomas Paine,2020-09-05 It is in The Age of Reason that Thomas Paine lays out the foundation for the establishment of America as a Deist country in much the same way that The Crisis established America as the model for democratic ideals In prose that very often engages a particularly biting and satiric mode of humor Paine pushes forward the concept of Deist though as the underpinning of religious freedom in

such a way that it would eventually come back to haunt If it can be stated unequivocally that it is sometimes unwise to be too truthful then The Age of Reason offers proof Nothing that Paine asserts was ever officially challenged by any major figure involved in the foundation of American representative constitutional democracy yet by the time he finally managed to be release from a French prison through no help at all from George Washington and returned back to the country he did as much to found any other of its famous fathers he was a pariah shunned by his formerly fervent supporters into a life of ostracism What exactly is contained in The Age of Reason that was viewed with such distaste by so many who shared its opinions For one thing the existence of a God as creator of the universe but not an active participant in it Paine utterly rejected religion and used The Age of Reason in part to outline how one could very definitely be deeply spiritual without buying into Moses Jesus Mohammed or any other avatar of redemptive activism from the beyond Like so many of the more famous figures attending the Continental Congress and the Constitutional Convention Paine was a Deist nature itself was the existence of a benevolent Supreme Being This of course was in direct opposition to idealistic views of Puritan settlers like John Winthrop who saw America as special precisely because it was formed in great part by the Hand of God For Paine America is not the City on the Hill but something even greater A City of Men **Paine, Scripture, and Authority** Edward Hutchins Davidson, William J.
