The Awkward Age With Biographical Introduction:

The Awkward Age in Women's Popular Fiction, 1850-1900 Sarah Bilston, 2004-07-22 This book demonstrates that the awkward age formed a fault line in Victorian female experience an unusual phase in which restlessness self interest and rebellion were possible Tracing evolving treatments of female adolescence through a host of long forgotten women's fictions the book reveals that representations of the girl in popular women's literature importantly anticipated depictions of the feminist in the fin de siècle New Woman writing conservative portrayals of girls hopes dreams and subsequent frustrations helped clear a literary and cultural space for the New Woman's awakening to disaffected consciousness The book thus both historicises the evolution and mythic appeal of the female adolescent and works to receive suggestive exchanges between apparently diverse female literary traditions

Henry James, Gertrude Stein, and the Biographical Act Charles Caramello, 2000-11-09 Focusing on biographical portraiture Charles Caramello argues that Henry James and Gertrude Stein performed biographical acts in two senses of the phrase they wrote biography but as a cover for autobiography Constructing literary genealogies while creating original literary forms they used their biographical portraits of precursors and contemporaries to portray themselves as exemplary modern artists Caramello advances this argument through close readings of four works that explore themes of artistry and influence and that experiment with forms of biographical portraiture James's early biography of Nathaniel Hawthorne and his much later group biography William Wetmore Story and His Friends and Stein's celebrated Autobiography of Alice B Toklas and her largely forgotten Four in America which comprises biographies of Ulysses S Grant Wilbur Wright Henry James and George Washington The first comparative study of these two great expatriate writers Henry James Gertrude Stein and the Biographical Act addresses questions of art influence and literary culture by analyzing important biographical portraits that themselves address the same questions Originally published 1996 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

Balfour's World Nancy W. Ellenberger, 2015 An exploration of political culture in Britain in the last decades of the nineteenth century revealing how Arthur Balfour and his circle served as a clear bridge between the Victorians and the moderns in Britain's twentieth century political culture Arthur James Balfour 1848-1930 was born toward the beginning of

Queen Victoria's long reign At her death in 1901 he was a year away from becoming the first prime minister of the Edwardian era In the quarter century after his entry into political life in the 1870s Britain experienced material changes and a sense of intensifying human interactions as dramatic to his generation as the forces of globalization are today Aristocrats watched anxiously as gifted boys from the middle classes rose to the top in professional life Culture wars over male and female behaviours erupted at home as small wars of empire proliferated overseas Politicians came to terms with electioneering among the masses and with a boisterous print culture that prefigured the mass media of the next century The first great era of advanced international capitalism affected every segment of British and imperial society including the refined domain of Arthur Balfour That changes of the magnitude that Balfour's generation faced would demand different skills career paths or political alignments is not surprising That they might also result in the creation of different emotional sets and interior worlds may be more so Balfour's World provides an intimate history of how Arthur and his friends George Herbert 13th Earl of Pembroke Laura and Margot later Lady Asquith Tennant Mary and George Wyndham helped to construct a new emotional regime among Britain's political elites at the fin de siècle The rich diaries letters and publications they left allow access both to public selves and to inner landscapes and the mix of psychological patterns and cultural assumptions that mediated their responses to the world As the new century began the demeanours modelled by habits of Balfour's world would characterize many in the imperial elite marking them as a clear bridge between the Victorians and the moderns in Britain's twentieth century political culture
