Although there is no scientific proof or solid evidence for that, a significant number of parents believe that the cases of autism are clearly linked to the side effects of vaccination. According to Healthlink BC Canada, studies have been made regarding the timing of the vaccination and the cases of autism, which has resulted in zero clinical evidence regarding the link between the two. A far greater danger is the lack of vaccination that can easily place a child in danger as the myths and false beliefs make parents believe that they are actually trying to prevent a child from appearing on the autism spectrum. Starting with the epidemiologic evidence and up to mental health factors, this essay focuses on genetic and psychology studies to outline the facts and resolve the myths. Choosing the MMR vaccine as the sample of studies, the research conducted shows that there is no scientific evidence between vaccination and the cases of autism.

The Art Of The Personal Essay Introduction:

The Art of the Personal Essay Phillip Lopate, 1994 More than 75 essays trace the development of the literary form from classical examples to contemporary English and American writers Essayists on the Essay Carl H. Klaus, Ned Stuckey-French, 2012-03-15 The first historically and internationally comprehensive collection of its kind Essayists on the Essay is a path breaking work that is nothing less than a richly varied sourcebook for anyone interested in the theory practice and art of the essay This unique work includes a selection of fifty distinctive pieces by American Canadian English European and South American essayists from Montaigne to the present many of which have not previously been anthologized or translated as well as a detailed bibliographical and thematic guide to hundreds of additional works about the essay From a buoyant introduction that provides a sweeping historical and analytic overview of essayists thinking about their genre a collective poetics of the essay to the detailed headnotes offering pointed information about both the essayists themselves and the anthologized selections to the richly detailed bibliographic sections Essayists on the Essay is essential to anyone who cares about the form This collection provides teachers scholars essayists and readers with the materials they need to take a fresh look at this important but often overlooked form that has for too long been relegated to the role of service genre used primarily to write about other more literary genres or to teach young people how to write Here in a single celebratory volume are four centuries of commentary and theory reminding us of the essay's storied history its international appeal and its relationship not just with poetry and fiction but also with radio film video and new media *Understanding the Essay* Patricia Foster, Jeff Porter, 2012-07-25 This is a book on how to read the essay one that demonstrates how reading is inextricably tied to the art of writing It aims to treat the essay with the close attention that has been given to other literary genres and in doing so it suggests the beauty and depth of the form as a whole At once personal appreciations and acute critical assessments the pieces collected here broaden our perspective on the essay as a major literary art tracing its history from William Hazlitt to Joan Didion *Reading for Storyness* Susan Lohafer, 2020-03-03 The short story has been a staple of American literature since the nineteenth century taught in virtually every high school and consistently popular among adult readers But what makes a short story unique In *Reading for Storyness* Susan Lohafer former president of the Society for the Study of the Short Story argues that there is much more than length separating short stories from novels and other works of fiction With its close readings of stories by Kate Chopin Julio Cortázar Katherine Mansfield and others this book challenges assumptions about the short story and effectively redefines the genre in a fresh and original way In her analysis Lohafer combines traditional literary theory with a more unconventional mode of research monitoring the reactions of readers as they progress through a story to establish a new poetics of the genre Singling out the phenomenon of imminent closure as the genre's defining trait she then proceeds to identify preclosure points or places where a given story could end in order to access hidden layers of the reading experience She expertly harnesses this theory of preclosure to explore interactions

between pedagogy and theory formalism and cultural studies fiction and nonfiction Returning to the roots of storyness Lohafer illuminates the intricacies of classic short stories and experimental forms of surreal postmodern and minimalist fiction She also discusses the impact of social constructions such as gender on the identification of preclosure points by individual readers Reading for Storyness combines cognitive science with literary theory to present a compelling argument for the uniqueness of the short story
