esfuerzo de investigadoras es y profesoras es de diversas instituciones académicas quienes buscan recontar y hacer visible el papel de las empresas en el marco de un conflicto armado de más de 50 años. Ahora bien, pese a centrarse en el conflicto colombiano algunas reflexiones de los autores permiten analizar experiencias de otros países en estos escenarios como el caso sudafricano lo cual enriquece la investigación sobre el casi invisible y poco discutido papel de la empresa en los conflictos armados. En este último aspecto este libro destaca la importancia de la empresa como gestor o constructor de paz y analiza desde emprendimientos de economía solidaria por excombatientes hasta empresas transnacionales que utilizan el mecanismo de obras por impuestos. Otro aspecto que destacar son los aportes acerca de la responsabilidad o criminalización del sector empresarial como terceros después de la firma del Acuerdo de Paz en el 2016 entre el Gobierno nacional y la guerrilla FARC-EP. Sin duda todo un reto para la justicia ordinaria y para la Justicia Especial para la Paz que por el momento no resuelven uno de los dilemas de la implementación de los Acuerdos o también conocido como el posconflicto que no lograr que las empresas reparen a las víctimas cuenten la verdad y sobre todo no repitan sus comportamientos del pasado. Aquí el libro pretende resaltar que el conflicto interno y el posconflicto no solo se presentan con actores armados estatales o no estatales pues convergen distintos actores sociales que voluntaria o involuntariamente cambian sus camisetas de víctimas a victimarios de cómplices a determinadores de la guerra. Precisamente el reto de la investigación se encuentra en entender los diferentes roles de la empresa desde proyectos productivos de excombatientes hasta los inversionistas extranjeros en los escenarios de violencia armada los cuales han generado en ocasiones efectos positivos y desafortunadamente en la mayoría de los casos efectos negativos en las víctimas o comunidades de la guerra interna. En otras palabras el desafío de entender cuándo las empresas participan como víctimas y sufren las consecuencias de la guerra en sus actividades u operacionales económicas o cuándo se convierten en victimarios y son cómplices o determinadores de las violaciones de los derechos humanos o del derecho internacional humanitario constituyendo alianzas con los grupos armados ilegales o simplemente se benefician de dichas violaciones para obtener ventajas en sus actividades o cuándo las empresas son un gestor de paz al asistir a las comunidades y tomar acciones encaminadas a la prevención de la violencia o contribuyen a reparar las violaciones cometidas y proteger los derechos humanos de la población en los territorios de la guerra.
