**Commonwealth and Covenant** Marcia Pally,2016-03-02 In Commonwealth and Covenant Marcia Pally argues that in order to address current socioeconomic problems we need not more economic formulas but rather a better understanding of how the world is set up an ontology of how we and the world work Without this good proposals that arise lack political will and go unimplemented Pally describes our basic setup as separability amid situatedness or distinction amid relation Though we are all unique individuals we become our singular selves through our relations and responsibilities to the people and environments around us Pally argues that our culture s overemphasis on separability individualism run amok results in greed adversarial and deceitful political discourse and chicanery resource grabbing broken relationships and anomie Maintaining that separability and situatedness can and must be considered together in public policy Pally draws on intellectual history philosophy and especially historic Christian and Jewish theologies of relationality to construct a new framework for addressing present economic and political ills

**The intercultural city step by step - Practical guide for applying the urban model of intercultural integration** Council of Europe, 2014-01-01 Most countries in Europe and indeed around the world are facing the challenges of international migration and integration of minorities. It falls primarily upon cities to design and implement policies that foster community cohesion and turn cultural diversity into a factor of development rather than a threat. This guide is designed for city leaders and practitioners wishing to learn from the Intercultural Cities pilot project run by the Council of Europe and the European Commission in developing an intercultural approach to diversity management and integration. This approach has been built on the basis of experience in dozens of real life cities in redesigning their policies and reshaping their governance to ensure equal opportunities and realise a diversity advantage. The guide recommends steps and measures to help develop an intercultural strategy and monitor its implementation. It illustrates the elements of such a strategy with analytical questions, suggestions and examples of practice in various European cities. It is expected that any city embarking on the Intercultural Cities agenda is a confident and competent entity that is able to creatively adapt the general concepts and actions contained in this guide to local circumstances. This guide is therefore not an instruction manual but rather an aide memoire to support cities as they create their own trajectory.

The Rise of the Neighbourhood in Canada, 1880s-2020s Richard Harris, 2025-03-31 Neighbourhoods matter now more than ever before. They sustain fewer social connections but in an era of great social inequality and high levels of immigration they have become vital as places for homeowner investment and educational opportunity for children. The Rise of the Neighbourhood in Canada 1880s-2020s traces the changing character and significance of Canadian urban neighbourhoods, city and suburban, since the 1880s. The book highlights patterns in neighbourhood life, particularly noticeable in larger urban areas which are especially important for the least mobile people: workers, lower income households, immigrants, women, children and the elderly. It explores how the physical and social characteristics of neighbourhoods affect public health, crime rates, social capital and job opportunities while shaping the lifelong prospects of children. Analysing long term trends, the book examines the importance of communications technology in the context of rising inequality and immigration. It shows how, as homeownership rose, neighbourhoods became vital settings for investment, increasingly financialized, reducing affordability. Using examples from all types of neighbourhoods in cities, small and large, from St John's through Montreal and Winnipeg to Victoria, The Rise of the Neighbourhood in Canada argues that the current prominence of neighbourhoods will persist.
