Les troubles liés aux événements traumatiques.

Guide des meilleures pratiques pour une clientèle complexe Suzie Bond, 2019-04-23T00:00:00-04:00 Au Canada la majorité 76 % de la population vivra un événement traumatique au cours de sa vie. Même si la plupart des personnes arrivent à adapter un tel événement, près de 10 % développeront un trouble de stress post-traumatique (TSPT). Ce nombre peut tripler voire quadrupler dans les populations à plus haut risque comme les militaires, les victimes d'agressions sexuelles et les individus gravement blessés. Outre le TSPT, plusieurs troubles peuvent apparaître à la suite d'un trauma, soit une humeur dépressive, de l'insomnie et des cauchemars, une consommation inappropriée d'alcool ou de drogue, pour ne nommer que ceux-ci. En somme, les cliniciens sont souvent démunis face à cette clientèle des plus complexes. Cet ouvrage est le premier en français à présenter les meilleures pratiques dans l'évaluation et le traitement du TSPT et des troubles connexes dans un langage accessible aux cliniciens. Ancr rigoureusement la fois dans la recherche scientifique et dans la pratique clinique, il se veut un exercice de transfert de connaissances de la recherche vers la clinique. Ainsi, il aidera les cliniciens à choisir le traitement le plus approprié pour leur patient et leur apportera les outils et les ressources nécessaires pour mettre les recommandations en pratique. Il pourra aussi être utilisé auprès des futurs intervenants afin de parfaire leur formation concernant l'évaluation et l'intervention auprès des victimes de trauma.

Sustainable procurement Luciana Stocco Betiol, Thiago Hector Kanashiro Uehara, Florence Karine Laloe, Gabriela Alem Appugliese, Sergio Adeodato, Ligia Ramos, Mario Prestes Monzoni Neto, 2015-12-15 It's a fight against time. That is how the book begins, presenting a historical background of how the topic of sustainable production and consumption was included in the global agenda and reached Brazil. It is clear in the work who and what the potential actors and instruments that interact for that purpose are. In a fun way, thematic infographics show the impact from consumption and production inspired by Life Cycle Assessment (LCA). In Chapters 2 and 3, readers will find inspiring examples of institutional procurement collected through exclusive interviews, news articles, corporate reports and scientific articles describing successful experiences in the public and private sectors, highlighting which institutions broke the resistance and became protagonists in the use of transformation potential through sustainable consumption and production. In Chapter 4, under a guidance perspective, two tools are recommended for continuously improving management of public and business procurement: the former was developed by ICLEI for the Procura campaign and the latter by the UN Global Compact. Also, propositions are presented in order to incorporate sustainability attributes in the procurement and supply management systems. Based on our experiences with consultancies and projects in partnership with governments, business platforms and academic researches, a survey was conducted with about 50 institutions among public bodies and businesses, organizing lessons learnt and calling attention for facilitators and barriers of institutional consumption aimed at sustainability. Among the institutions we surveyed, we picked up the examples described in this work. Finally, in Chapter 5, under an integrated perspective of sectors and actors, including individual consumers, we made a critical analysis of the advancements and challenges faced in the past years and point to guidelines for the future of the so-called inclusive green economy.

considering institutional procurement as an essential tool to re build a global scenario that is more favorable to sustainable development
