activities in this book are designed both to help children to learn and to understand math concepts and also to prepare them
for taking SATS papers at KS2 There is plenty of research evidence to suggest that children are helped in their
understanding of math problems if teachers focus on common misconceptions and if children are given opportunities for
discussion and explanation of their own understanding Children can also feel stigmatized by being made to focus on their
own errors Mike Spooner has developed activities that present already completed work which children then assess correct
and discuss in this way they can analyze mistakes without damage to their own self esteem The activities are presented in the
same format as the SATS papers to give children practice in coping with that format The book also contains writing frames
that children can use to structure their discussions of math problems **Maths** Spario Soon,2017 **Scholastic Pr1me**
