

## Illinois DCFS Flowchart – How to Report Suspected Child Abuse or Neglect

### ***Organize the information for your report.***

Gather **ONLY** the information you need to make the report of abuse/neglect to the Hotline. Remember, it is **NOT** your role to interview the child about the abuse. Only ask the child for information that you **NEED** to know, such as a brief description of the incident. Most of the other information can be gathered from sources other than the child (such as school records, family members, or a child's case file). Try to have this information available before calling:

1. Name, address and age of victim
2. Name and address of parents/caretakers and siblings
3. Relationship of caretaker to victim
4. Your observations, including specific incidents you have witnessed or the child has told you about, location and severity of injuries, any pattern of neglect or abuse, and any physical evidence
5. Any explanation provided by the child (in the child's own words)
6. Any other relevant information that would expedite the investigation, such as directions to the victim's house (especially in rural areas) or information about potential risks to the investigator.

Later you will be asked to **submit a written confirmation**, so here are some tips for documenting:

- If you have a camera, taking photographs of the injury can be very helpful to the investigator. This type of documentation is particularly important when the child has a visible injury (a bruise) that may disappear or change in nature before the investigator sees it.
- Medical professionals may find it easier to use a body chart or draw a body to record the location and the nature (cuts, welts, burns, bruises, broken bones) of the injury. If you are a medical professional, your notes in the chart may also become part of the investigation record.
- Non-medical reporters should not ask a child to undress to verify that the injuries the child described are present. They should refer the child to a medical professional.
- In addition to your observations of the injury, write down what the child said. It is helpful to make careful notes, using the child's exact words whenever possible.

DCFS has a Checklist Form that is a helpful tool for documenting. (See the Mandated Reporter Manual, Appendix B.)
