*Exam Copy* Beverly Stanford, Forrest Parkay, 2004-02 ,      **The Shame of the Nation** Jonathan Kozol, 2005-09-13

The nation needs to be confronted with the crime that we are committing and the promises we are betraying This is a book about betrayal of the young who have no power to defend themselves It is not intended to make readers comfortable Over the past several years Jonathan Kozol has visited nearly 60 public schools Virtually everywhere he finds that conditions have grown worse for inner city children in the 15 years since federal courts began dismantling the landmark ruling in Brown v Board of Education First a state of nearly absolute apartheid now prevails in thousands of our schools The segregation of black children has reverted to a level that the nation has not seen since 1968 Few of the students in these schools know white children any longer Second a protomilitary form of discipline has now emerged modeled on stick and carrot methods of behavioral control traditionally used in prisons but targeted exclusively at black and Hispanic children And third as high stakes testing takes on pathological and punitive dimensions liberal education in our inner city schools has been increasingly replaced by culturally barren and robotic methods of instruction that would be rejected out of hand by schools that serve the mainstream of society Filled with the passionate voices of children and their teachers and some of the most revered and trusted leaders in the black community *The Shame of the Nation* is a triumph of firsthand reporting that pays tribute to those undefeated educators who persist against the odds but directly challenges the chilling practices now being forced upon our urban systems by the Bush administration In their place Kozol offers a humane dramatic challenge to our nation to fulfill at last the promise made some 50 years ago to all our youngest citizens From *The Shame of the Nation* I went to Washington to challenge the soft bigotry of low expectations the president said in his campaign for reelection in September 2004 It is working It is making a difference It is one of those deadly lies which by sheer repetition is at length accepted by large numbers of Americans as perhaps a rough approximation of the truth But it is not the truth and it is not an innocent misstatement of the facts It is a devious appeasement of the heartache of the parents of the poor and if it is not forcefully resisted and denounced it is going to lead our nation even further in a perilous direction Also available as a Random House AudioBook and an eBook      *Public Education, Neoliberalism, and Teachers* Paul Bocking, 2020-04-02 From pressure to teach to the test and the use of quantitative metrics to define education quality to the rise of school choice and the shift of principals from colleagues to managers teachers in New York Mexico City and Toronto have experienced strikingly similar challenges to their professional autonomy By visiting schools and meeting teachers government officials and union leaders Paul Bocking identifies commonalities that are shaping how teachers work and public schools function While arguing that neoliberal education policy is a dominant trend transcending the realities of school districts states or national governments Bocking also demonstrates the importance of local context to explain variations in education governance especially when understanding the role of resistance led by teachers unions      **Resources in Education** , 1998      **Inclusive Pedagogies**

**School District Leadership Matters** Bruce Sheppard, Jean Brown, David Dibbon, 2009-03-08 School District Leadership Matters challenges policy makers administrators and academics in the field of educational leadership to reassess their traditional approaches to learning working and planning The authors believe that government restructuring standards based reforms and centrally imposed strategic planning have been painfully ineffective As a consequence student learning has become increasingly superficial and inauthentic This book bridges the traditional divide between the generalizations of social science theory on the one hand and the world of educational practice on the other It argues that a more promising approach to education reform is through effective school district leadership Sheppard Brown and Dibbon draw on their collective experience both as educational leaders and researchers of leadership having spent five years researching and working in one school district Here they show how a district superintendent can successfully navigate the paradoxes and challenges of facilitating collaborative leadership in a school district with a traditionally hierarchical organizational structure As a conclusion to their work the authors highlight what they call five recognitions that deepen readers understanding of school district leadership They illuminate too ways that senior level practitioners can apply theory to practice in order to break down the traditional hierarchical bureaucracies that inhibit learning and create professional learning communities School District Leadership Matters urges researchers graduate students practitioners and policymakers to focus on improving authentic learning for all students and argues that the best hope rests with effective school district leadership This empirically based yet practical book provides new insights and questions for academic researchers and will inspire policy makers and practitioners to imagine what could be and to work towards it
