Teaching Maths D.M. Neal,2013-10-23 School mathematics is a complex subject and an ever changing topic but this book will help teachers parents and employers to understand it better Insights in Healthcare Professions Education: 2021 Lynn Valerie Monrouxe,Jacqueline G. Bloomfield,2022-12-06 *Curriculum Practice* Martyn Hammersley,Andy Hargreaves,2012-05-04 When first published this book was one of the first collections of empirical research in the area of the knowledge transmitted in schools and the responses of students to it It includes studies of the histories of particular school subjects and of how the knowledge they embody is presented in the classroom Attention is also given to the effects of gender stereotypes among teachers and pupils both on pupils selection of courses to study and on their reactions to particular subjects in the classroom The other major topic in this collection is the way external examinations shape the nature of the school curriculum and how it is taught There are studies of how pupils and teachers adapt to the exam system and of how that system and its role in the accountability of schools have changed in recent years The articles collected here throw into relief important aspects of what is taught in schools and they do this on the basis of a solid foundation of empirical research

How Schools Worked R.D. Gidney,W.P.J. Millar,2012-02-21 Between the 1880s and the 1940s children in English Canada encountered schools and school systems profoundly different from today s In *How Schools Worked* R D Gidney and W P J Millar map the contours of that world retrieving it from the obscurity created not only by the passage of time but by fundamental shifts in organization pedagogical values and beliefs about the role of public education Moving beyond the rhetoric on school reform that marked the period *How Schools Worked* focuses squarely on schooling itself How many children went to elementary or secondary school how often and for how long What was the range of their educational attainments How were their patterns of attendance influenced by social class gender and where they lived What and how were they taught How were they assessed and promoted from grade to grade What were their teachers qualifications and experience What were their school buildings like Who paid the bills and how much did they pay How well or badly were children and young people served by their schools And how did answers to these questions change over time A sympathetic yet critical analysis *How Schools Worked* is a portrait of a complex enterprise at work Gidney and Millar offer a rich understanding of the period a reappraisal of some major debates and insights into educational issues that perplex us still

Hyper-Socialised: How Teachers Enact the Geography Curriculum in Late Capitalism David Mitchell,2019-11-01 *Hyper socialised* explores the challenges of late capitalist times for education systems schools and teachers It looks at how trends of accountability teaching to the test using pupil voice and reliance on network technologies are all connected to

powerful social and economic forces shaping the curriculum as it is taught in classrooms Such forces threaten to overwhelm teachers but in the right hands they can also be harnessed to create influence and teach a truly powerful curriculum for their students Presenting a historical view of curriculum change the book examines how society curriculum and teachers are linked Using geography as an illustrative subject the chapters investigate what influences teachers to what extent they are in control of the curriculum and what else is shaping it Divided into two parts it offers An in depth exploration of the relationship between society teachers and the curriculum including that what and how to teach remain wide open to debate Evidence based research into the significance and implications of hyper socialised curriculum enactment for teachers and teacher education Four case study portraits of geography departments and personal curriculum stories of each Head of Department Insights into the nature of teaching as a profession and how a crisis of teacher recruitment and retention may be addressed Written in clear and accessible terms this book is an essential resource for teacher educators subject teachers headteachers and educational researchers who want to understand how and why schools and teaching are changing and what this means for them

The Journal of Education for Ontario ,1870 **Curricula, Examinations, and Assessment in Secondary Education in Sub-Saharan Africa** World Bank,2008-02-15 Economic and social changes fast evolution of technology and the growing importance of Internet services and international communications all these require secondary education providers to adapt what is taught and learned in schools However in Africa the content of secondary curricula is in most cases ill adapted to 21st century challenges where young people are mobile have access to more and instant information and face health threats such as HIV AIDS In addition implementation problems exist and the time for instruction is often much less than what is required by the prescribed secondary curriculum In Africa there is a need to develop a secondary education curriculum adapted to the local economic and social environment but with international comparable performance indicators This study analyzes that challenge the quality of curricula and assessment and their development processes in secondary education in Africa against the background of existing contexts conditions and ambitions on the one hand and current pedagogical thinking on the other This World Bank Working Paper was prepared as part of the Secondary Education and Training in Africa SEIA initiative which aims to assist countries to develop sustainable strategies for expansion and quality improvements in secondary education and training
