Critical Pedagogy for a Polymodal World Douglas J. Loveless, Bryant Griffith, 2014-11-04 This book explores the complexity of communication and understanding as a possible asset in formal education rather than a problem that needs to be fixed The authors examine the question and experience as pedagogical tools challenging readers to play the critic and ask hard questions beginning with Why do the ideas discussed within the book matter The digital information age with expanding ways of thinking being communicating and learning complicates public education So what happens as diverse narratives collide in schools To answer this question the authors of this book delve into conflicting assumptions within the framework of complexity sciences and education in an attempt to explore space beyond positivist anti positivist debates This involves examining the role of cultural and aesthetic narratives and cautionary tales as means of acknowledging possibilities in human experiences in education These possibilities can facilitate praxis as theory research and teaching become reflective practices and as thinking about education broadens to include diverse methods of understanding and presenting complex phenomena

Resources in Education, 2001 *Teaching Climate Change to Children* Rebecca Woodard, Kristine M. Schutz, 2024 *Teaching Climate Change to Children* describes the journey of two literacy researchers to learn about climate change and support relevant literacy pedagogy for young children pre K 6 The authors argue that climate change and social justice are inextricable from each other that children in the younger grades are capable of learning about climate change and that reading writing and language study is well suited to this work Three anchoring themes are offered to support literacy climate pedagogy interconnectivity relationality and action with rich classroom examples and different entry points to engage with these themes either by starting small or going big The text includes chapters on the importance of taking an emotionally affirming stance and on the potential of incorporating arts based methods With love for the Earth and one another at its core this accessible book takes a broad view of what it means to cultivate sustainable futures for our planet for teachers and for children in today's schools Book Features A unique focus on teaching about climate change to young children as opposed to adolescents Insights drawn from a yearlong teacher inquiry group with classroom teachers and from literacy methods courses with preservice teachers Explicit attention to the

importance of humanizing and care based practices in literacy climate pedagogy Classroom examples collected across four urban public schools where teachers used the activities and resources discussed in the book User friendly textboxes with suggestions and questions to guide discussion reflection and action
