**Analysing Humorous Storybooks for the Use in the Primary EFL Classroom** Nina Schütze, 2018-08-20 Seminar paper from the year 2017 in the subject English Language and Literature Studies Literature grade 1-7 Bielefeld University Fakultät für Linguistik und Literaturwissenschaft course Teaching English Language and Literature and Culture in the Primary EFL Classroom language English abstract Using humour is a good way to create a positive atmosphere in the primary English classroom and it helps the children to concentrate and to enjoy the lesson Humour can for example be found in storybooks and is therefore seemingly easily accessible Yet it might be difficult for the children to understand in terms of their cognitive development or their cultural knowledge This leads to some questions concerning the use of humorous

children's books to teach language and culture of English speaking countries to German primary school children. Firstly it can be asked if picture books from different cultural backgrounds and with different kinds of humour can be used in primary school and what are possible difficulties in using books from a culture which is different from the listener's culture. Furthermore it can be interesting to look at important factors to consider when using a humorous picture book like cultural specific humour and children's humour. Finding approaches to answer these questions will be the focus of this paper. To do so it shall be looked at theories of humour which will be applied to a German and an English picture book to analyse the humour used in these books.

*The Linguistics of Humor* Salvatore Attardo, 2020-06-25. This book is the first comprehensive and systematic introduction to the linguistics of humor. Salvatore Attardo takes a broad approach to the topic exploring not only theoretical linguistic analyses but also pragmatic and semantic aspects, conversation and discourse analysis, ethnomethodology and interactionist and variationist sociolinguistics. The volume begins with chapters that introduce the terminology and conceptual and methodological apparatus as well as outlining the major theories in the field and examining incongruity and resolution and the semiotics of humor. The second part of the book explores humor competence with chapters that cover semantic and pragmatic topics, the General Theory of Verbal Humor and puns and their interpretation. The third part provides an in depth discussion of the applied linguistics of humor and examines social context, discourse and conversation analysis and sociolinguistic aspects. In the final part of the book the discussion is extended beyond the central field of linguistics with chapters discussing humor in literature, in translation and in the classroom. The volume brings together the multiple strands of current knowledge about humor and linguistics, both theoretical and applied. It assumes no prior background in humor studies and will be a valuable resource for students from advanced undergraduate level upwards, particularly those coming to linguistics from related disciplines.
