Investments Dimitris N. Chorafas, 2004 The Management of Investments is based on an extensive research project done by the author in 2003 and 2004 in the United States England Germany France Italy and Switzerland The author outlines the rules behind the able management of investments by private individuals banks and institutional investors These rules are examined within the perspective of each entity's goals and challenges Based on research results and on his own experience the author demonstrates that shareholder value is usually being paid lip service As far as investment results are concerned

Political Economy of Labour, Income Distribution & Exclusion Christos Papatheodorou, Savaş Çevik, Dimitris Paitaridis, Güneş Yılmaz, 2018-12-15 This volume includes 11 chapters based on papers presented at the 9th International Conference of Political Economy ICOPEC 2018 that was co organised by the Greek Association for Political Economy the Department of Social Policy of Panteion University and the Faculty of Economics of Marmara University Chapters adopt a political economy approach to discuss and analyse crucial issues linked to social and economic inequalities poverty and deprivation as well as to labour market changes These are issues which are greatly affected by the recent economic crisis

and by the neoliberal policies for fiscal discipline reduce of public spending and labour market deregulation that were implemented to most countries and particularly to those where the consequences of the crisis were more severe *Ronald H. Coase* Steven G. Medema,2016-07-27 Ronald Coase has been one of the most influential economists of his generation Although his work deals with foundation concepts of the discipline his ideas have been subject to a variety of usage often in conjunction with ideological baggage In this remarkable study of the man and his work Steven Medema presents a careful judicious and nonideological examination of Coase s ideas challenging their misleading common interpretation and revealing their true revolutionary potential Professor W J Samuels Michigan State University Steven Medema s achievement is remarkable with great fairness he introduces us to Coase s way of thinking and with great clarity helps us to see the continuity in Coase s work Medema has written an excellent book about one of the great economists of this century Professor T Eggertsson University of Iceland and Indiana University This book presents a systematic analysis of the contributions to economics made by Ronald Coase the recipient of the 1991 Nobel Prize in economics Throughout his career Coase has brought his own particular approach to the economic analysis of the firm pricing and costs externalities the economic role of government and economic method This book analyses Coase s seminal contributions to economics as well as the challenge that his work poses to conventional economic analysis Investors Chronicle ,2006 **The Post-1945**

Internationalization of Economics Alfred William Coats,1997 In addressing the internationalization of economics after 1945 these essays are concerned with aspects of economic education the economist s role in policymaking and the sociology and professionalization of the discipline These matters have rarely been considered in international terms While discussing organizations such as the World Bank International Monetary Fund and the European Community and presenting studies that are primarily concerned with the effect of these developments in particular countries this volume focuses on the situation of Latin America Arguably the post 1945 internationalization of economics has proceeded further more dramatically and with greater effect in that continent than in any other region of comparable size Contributors S Ambirajan William Ascher William J Barber Young Back Choi A W Coats Barend de Vries Margaret Garrison de Vries Peter Groenewegen Arnold Harberger Aiko Ikeo Maria Rita Loureiro Ivo Maes Veronica Montecinos Jacques J Polak Pier Luigi Porta Bo Sandelin Ann Veiderpass John Williamson Technology Enhanced Learning for Inclusive and Equitable Quality Education Rafael Ferreira Mello,Nikol Rummel,Ioana Jivet,Gerti Pishtari,José A. Ruipérez Valiente,2024-09-12 The two volume set LNCS 15159 and 15160 constitutes the proceedings of 19th European Conference on Technology Enhanced Learning EC TEL 2024 which took place in Krems Austria in September 2024 The 37 full papers 25 poster papers and 10 demo papers presented in the proceedings were carefully reviewed and selected from 140 submissions for research papers and 26 poster and 19 demo submissions They focus on effective technology adoption in educational settings ethical concerns and the possible digital divide these technologies could create The theme for the 2024 conference aimed to explore the role of Technology Enhanced

Learning TEL in this critical context and in achieving the United Nations Sustainable Development Goal for education Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

Global Change and Challenge Robert Bennett, Robert Estall, 2012-11-12 We are now experiencing a period of unprecedented change what amounts to a global revolution in our economy society and awareness of the human impact on the environment Global Change and Challenge examines some of the crucial issues facing society in the 1990s and how geography can contribute to their understanding and management Using the broad theme of how societies adapt to change the contributors seek to present a range of views on the geography of change in an accessible form for both school and university students The general aim of the book is as much to encourage students to understand where we are and where we have come from as to where we may be going Robert Bennett and Robert Estall are both Professors of Geography at the London School of Economics The contributors were all members of the Department of Geography at the LSE at the time of writing

Field Manual No.1-111: Aviation Brigades, **The SAGE Encyclopedia of Educational Technology** J. Michael Spector, 2015-01-29 The SAGE Encyclopedia of Educational Technology examines information on leveraging the power of technology to support teaching and learning While using innovative technology to educate individuals is certainly not a new topic how it is approached adapted and used toward the services of achieving real gains in student performance is extremely pertinent This two volume encyclopedia explores such issues focusing on core topics and issues that will retain relevance in the face of perpetually evolving devices services and specific techniques As technology evolves and becomes even more low cost easy to use and more accessible the education sector will evolve alongside it For instance issues surrounding reasoning behind how one study has shown students retain information better in traditional print formats are a topic explored within the pages of this new encyclopedia Features A collection of 300 350 entries are organized in A to Z fashion in 2 volumes available in a choice of print or electronic formats Entries authored by key figures in the field conclude with cross references and further readings A detailed index the Reader's Guide themes and cross references combine for search and browse in the electronic version This reference encyclopedia is a reliable and precise source on educational technology and a must have reference for all academic libraries

Law, Society, and Economy Richard Rawlings, London School of Economics and Political Science, 1997 This centenary volume of essays explores a number of related themes which differentiate and characterize the approach of the LSE Central to this is the assumption that law is one of the social sciences and that law should be studied in context as a social

Family Men: Fathers as Coparents in Diverse Contexts and Family Structures Sarah E. DeMartini, Nancy Hazen, Martin I. Gallegos, Nicola Carone, Lauren Altenburger, 2022-08-26

Reinterpreting the Keynesian Revolution Robert Cord, 2013 Various explanations have been put forward as to why the Keynesian Revolution in economics in the 1930s and 1940s took place Some of these point to the temporal relevance of John Maynard Keynes's *The General Theory of Employment Interest and Money* 1936 appearing as it did just a handful of years after the onset of the

Great Depression whilst others highlight the importance of more anecdotal evidence such as Keynes's close relations with the Cambridge Circus a group of able young Cambridge economists who dissected and assisted Keynes in developing crucial ideas in the years leading up to the General Theory However no systematic effort has been made to bring together these and other factors to examine them from a sociology of science perspective This book fills this gap by taking its cue from a well established tradition of work from history of science studies devoted to identifying the intellectual technical institutional psychological and financial factors which help to explain why certain research schools are successful and why others fail This approach it turns out provides a coherent account of why the revolution in macroeconomics was Keynesian and why on a related note Keynes was able to see off contemporary competitor theorists notably Friedrich von Hayek and Michal Kalecki

Encyclopedia of Gender and Information Technology Trauth, Eileen M., 2006-06-30 This two volume set includes 213 entries with over 4 700 references to additional works on gender and information technology Provided by publisher

Teaching Intellectual Property (IP) in Countries in Transition World Intellectual Property Organization, 2016-11-11 The purpose of this Study is to identify the special needs of countries in transition with respect to intellectual property training and education to define the different goals and objectives of such training and to facilitate the development of a core curriculum and innovative methodologies for teaching IP in countries in transition **Army Logistician** , 2005

Promoting Global Literacy Skills through Technology-Infused Teaching and Learning Keengwe, Jared, 2014-08-31 The increasing internationalization of today's classrooms calls for learning institutions to prepare students for success in an interdependent and technologically advanced world Faculty who are competent in multiple 21st century skills are best equipped to engage students in curricula that are relevant transformative and engaging across content areas and cultures Promoting Global Literacy Skills through Technology Infused Teaching and Learning examines the function and role of globalization in 21st century teaching and learning especially in light of technology integration and the need to prepare and empower global educators and global citizens respectively Covering topics that range from social networking in linguistics to software used in engineering curricula this premier reference work will be relevant to academicians researchers students librarians practitioners professionals and engineers *Routledge Handbook of Global Economic History* Francesco Boldizzoni, Pat Hudson, 2015-12-22 The Routledge Handbook of Global Economic History documents and interprets the development of economic history as a global discipline from the later nineteenth century to the present day Exploring the normative and relativistic nature of different schools and traditions of thought this handbook not only examines current paradigmatic western approaches but also those conceived in less open societies and in varied economic political and cultural contexts In doing so this book clears the way for greater critical understanding and a more genuinely global approach to economic history This handbook brings together leading international contributors in order to systematically address cultural and intellectual traditions around the globe Many of these are exposed for consideration for the first time in

English The chapters explore dominant ideas and historiographical trends and open them up to critical transnational perspectives This volume is essential reading for both academics and students in economic and social history As this field of study is very much a bridge between the social sciences and humanities the issues examined in the book will also have relevance for those seeking to understand the evolution of other academic disciplines under the pressures of varied economic political and cultural circumstances on both national and global scales *New Developments in Pathways Towards Diversity and Inclusion in STEM: A United States Perspective* Alexander Gates, Juan Gilbert, Chris Botanga, Kim Nguyen, Bonita London, 2022-10-17 The Louis Stokes Alliances for Minority Participation LSAMP program of the US National Science Foundation has been a primary force for raising the success and graduation of minority students in STEM for 30 years Increasing the number of underrepresented students earning baccalaureate degrees and entering graduate school in STEM is the goal of LSAMP This goal has been nearly achieved through the formation of alliances of degree granting institutions of higher learning varying from community colleges to major research institutions Currently there are 59 alliances including more than 400 institutions LSAMP is responsible for more than 650 000 bachelor s degrees earned by minority students in STEM The papers for this Research Topic should focus on the use of LSAMP activities programs and collaborations to develop pathways to success and graduation of STEM majors from minority groups that underrepresented in STEM These pathways can include any segment from pre college through graduate school Areas of special interest include mentoring research experiences transitions between levels and novel approaches for retention The studies should be research based and rigorous They can be pure research studies curriculum and design or literature reviews but they must be at a cutting edge level and be subject to detailed review and assessment
