What Lies Between Matt Tierney, 2014-12-12 By what aesthetic practice might post politics be disrupted Now is a moment that many believe has become post racial post national post queer and post feminist This belief is reaffirmed by recent events in the politics of diminished expectations especially in the United States What Lies Between illustrates how today's discourse repeats the post politics of an earlier time In the aftermath of World War II both Communism and Fascism were no longer considered acceptable political extremes appeared exhausted and consensus appeared dominant Then unlike today this consensus met a formal challenge a disruption in the shape of a generative and negativist aesthetic figure the void What Lies Between explores fiction film and theory from this period that disrupted consensual and technocratic rhetorics with formal experimentation It seeks to develop an aesthetic rebellion that is still relevant and indeed vital in the positivist present

Urban Interstices: The Aesthetics and the Politics of the In-between Andrea Mubi Brighenti, 2016-02-11 Bringing together a team of international scholars with an interest in urban transformations spatial justice and territoriality this volume questions how the interstice is related to the emerging processes of partitioning enclave making and zoning showing how in between spaces are intimately related to larger flows networks territories and boundaries Illustrated with a range of case studies from places such as the US Quebec the UK Italy Gaza Iraq India and South east Asia the volume analyses the place and function of interstitial locales in both a disciplined urban space and a disordered space conceptualized through the notions of excess danger and threat Warning not to romanticize the interstice the book invites us to study it as not simply a place but also a set of phenomena events and social interactions How are interstices perceived and represented What is the politics of visibility that is applied to them How to capture their peculiar rhythms speeds and affects On the one hand interstices open up venues for informality improvisation challenge and bricolage playful as well as angry statements on the neoliberal city and enhanced urban inequalities On the other hand they also represent a crucial site of governance even governance by withdrawal and urban management where an array of techniques ranging from military urbanism to new forms of value extraction are experimented At the point of convergence of all these tensions interstices appear as veritable
