The Corporation of the Future Stuart Orr, Paul Hunter, 2022-11-24 Although largely unseen the industrial revolution taking place before us is picking up steam dramatically Dissolution of traditional global trading partnerships the effect of COVID 19 on supply chains and the formation of new trading blocks such as China s Belt and Road initiatives are creating turmoil and rapid change in the international business domain Continual advances in technology health treatments political and societal change are underpinning these transformations It is unclear just how this revolution will unfold or what the role of the corporation will be in the long run This book helps us navigate through these challenging times by identifying areas where opportunities will develop Written by highly qualified experts from a diverse range of backgrounds the book takes a novel backcast view to present more critical arguments The book has

been set in the not so distant future reflecting back on the changes that have led to a new type of corporation and the conditions that have led to it Each chapter presents a complimentary view about the nature of and context for the 2040 Future Corporation The back casting perspective will provide a very effective discipline for readers to analyse contemporary trends while presenting an integrated and balanced future perspective Always On Arve Peder Øverland, 2016-04-08 Where do powerful strategies come from How do some companies develop strategies that enable them to outperform others regardless of the state of their industry or the economic climate How does a company get the essentials to work in regard to the company s strategies such as leadership buy in and follow through on implementations and performance management without being slow rigid and check box focused These are some of the questions asked by Arve Peder verland in Always On Digital Brand Strategy in a Big Data World This book will provide an understanding of what it takes to develop implement and run a digital strategy but it is not meant as a rigid process document that must be strictly adhered to Companies have different needs and live in vastly different environments The internal structure of an organization and the market in which it competes is not going to adapt to a digital strategy process it must find a process and methodology that works best for it With big data emerging as a standard framework for decision making digital strategy and governance have taken on increased importance It s a given in today s online marketplace that you are perceived as being always on Make sure your governance programmes for your systems and platforms keep it that way Think fast be agile be ready you re always on
