A New Theory of Justice and Other Essays James Ward,2019-08-26 Is justice best understood as flowing from a social contract or is there something else going on How can we explain the many divergent notions of justice throughout history Is it even possible to give a separate account of justice as opposed to say social convention or morality These are some of the questions considered in A New Theory of Justice But there are other essays in here other questions and other tentative answers Is it possible to talk about God anymore What kinds of minds do animals have and how could we ever find out And what about free will is it just a story we tell ourselves to help us navigate life and stay sane Or not The author has a master s degree and a DPhil both in Philosophy

Essays in Legal and Moral Philosophy H. Kelsen,2012-12-06 In his choice of texts the Editor has been faced with the difficult task of selecting from among the author s more than 600 publications those of the greatest philosophical interest It is chiefly the topics of value relativism and the logic of norms that have been kept in view The selection has also been guided by the endeavour to reprint so far as possible texts which have not hitherto appeared in English At times however this aim has had to be discarded in order to include works of key importance and also the latest expressions of Kelsen s view In addition to the two topics already mentioned the Editor has considered Kelsen s discussions of the causal principle to be so far worthy of philosophical attention that some writings on causality and accountability have been included in this collection of philosophical studies

On the Currency of Egalitarian Justice, and Other Essays in Political Philosophy Gerald A. Cohen,2011-01-03 G A Cohen was one of the most gifted influential and progressive voices in contemporary political philosophy At the time of his death in 2009 he

had plans to bring together a number of his most significant papers This is the first of three volumes to realize those plans Drawing on three decades of work it contains previously uncollected articles that have shaped many of the central debates in political philosophy as well as papers published here for the first time In these pieces Cohen asks what egalitarians have most reason to equalize he considers the relationship between freedom and property and he reflects upon ideal theory and political practice Included here are classic essays such as Equality of What and Capitalism Freedom and the Proletariat along with more recent contributions such as Fairness and Legitimacy in Justice Freedom and Money and the previously unpublished How to Do Political Philosophy On ample display throughout are the clarity rigor conviction and wit for which Cohen was renowned Together these essays demonstrate how his work provides a powerful account of liberty and equality to the left of Ronald Dworkin John Rawls Amartya Sen and Isaiah Berlin *Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations for 1988* United States. Restorative Justice & Responsive Regulation John Braithwaite, 2002 Braithwaite's argument against punitive justice systems and for restorative justice systems establishes that there are good theoretical and empirical grounds for anticipating that well designed restorative justice processes will restore victims offenders and communities better than existing criminal justice practices Counterintuitively he also shows that a restorative justice system may deter incapacitate and rehabilitate more effectively than a punitive system This is particularly true when the restorative justice system is embedded in a responsive regulatory framework that opts for deterrence only after restoration repeatedly fails and incapacitation only after escalated deterrence fails Braithwaite's empirical research demonstrates that active deterrence under the dynamic regulatory pyramid that is a hallmark of the restorative justice system he supports is far more effective than the passive deterrence that is notable in the stricter sentencing grid of current criminal justice systems Justice and Health Care Allen Buchanan, 2009-11-05 This volume brings together ten essays that have been published over a period of more than two decades in a wide range of venues and arranges them in such a way as to demonstrate the systematic progression of the author's thinking This volume bridges the disciplinary chasm between Bioethics and Political Philosophy **Retribution, Justice, And Therapy** J.G. Murphy, 1979-07-31 One might legitimately ask what reasons other than vanity could prompt an author to issue a collection of his previously published essays The best reason I think is the belief that the essays hang together in such a way that as a book they produce a whole which is in a sense greater than the sum of its parts When this happens as I hope it does in the present case it is because the essays pursue related themes in such a way that together they at least form a start toward the development of a systematic theory on the common foundations supporting the particular claims in the particular articles With respect to this collection the essays can all be read as particular ways of pursuing the following general pattern of thought that a commitment to justice and a respect for rights and not social utility must be the

foundation of any morally acceptable legal order that a social contractarian model is the best way to illuminate this foundation that a retributive theory of punishment is the only theory of punishment resting on such a foundation and thus is the only morally acceptable theory of punishment that the twentieth century's faddish movement toward a scientific or therapeutic response to crime runs grave risks of undermining the foundations of justice and rights on which the legal order ought to rest and finally that the legitimate worry about the tendency of the behavioral sciences to undermine the values of
