Awakened by Autism Andrea Libutti, M.D., 2015-04-01 Andrea Libutti began the work of reconstructing herself after her oldest son was diagnosed with severe autism several years ago. Distraught and seemingly hopeless at the time, a series of unfolding events moved her from sleepwalking through life toward a personal journey of inner transformation. She immersed herself in research surrounding the causes and treatments for autism and after several years of learning she has come to understand the disorder from a physical, emotional, and spiritual perspective. In *Awakened by Autism*, Andrea shares her journey and the knowledge she has gained along the way. She believes that the masses of children diagnosed today with autism are here to teach us some important lessons about the world we have created. Humanity has gotten off track, often motivated by profit, leaving our bodies and our planet overburdened with toxins and our families exhausted, stressed, and broken. It is for these very reasons that autism has emerged as an epidemic and a calling for humanity to wake up. We cannot continue to deplete our planet and our souls and still expect our children to thrive. *Awakened by Autism* is both a memoir and a practical guide for healing our children and a starting point for healing our planet. **Queer Times, Queer Becomings** E.

Ethics and Economics of Assisted Reproduction Maura A. Ryan, 2003-06-11 For those who undergo it, infertility treatment is costly, time-consuming, invasive, and emotionally and physically arduous, yet technology remains the focus of most public discussion of the topic. Drawing on concepts from medical ethics, feminist theory, and Roman Catholic social teaching, Maura A. Ryan analyzes the economic, ethical, theological, and political dimensions of assisted reproduction. Taking seriously the experience of infertility as a crisis of the self, the spirit, and the body, Ryan argues for the place of reproductive technologies within a temperate, affordable, sustainable, and just health care system. She contends that only by ceasing to treat assisted reproduction as a consumer product can meaningful questions about medical appropriateness and social responsibility be raised. She places infertility treatments within broader commitments to the common good, thereby understanding reproductive rights as an inherently social rather than individual issue. Arguing for some limits on access to reproductive technology, Ryan considers ways to assess the importance of assisted reproduction against other social and medical prerogatives and where to draw the line in promoting fertility. Finally, Ryan articulates the need for a compassionate spirituality within faith communities that will nurture those who are infertile.
