Enriching Teaching and Learning Environments With Contemporary Technologies Durnali, Mehmet, Limon, İbrahim, 2020-02-07 Educational technologies have revolutionized the learning and teaching environments Offline online applications and social media have changed the conventional learning and teaching habits and competencies In terms of learners it has been empirically proven that the use of educational technologies in the classroom make learning easier and more enjoyable On the other hand it also poses threats to students such as cyberbullying and online addiction While exploiting the opportunities of technological use in the classroom educators must also remain vigilant and formulate ways to overcome the challenges and risks brought by technology Enriching Teaching and Learning Environments With Contemporary Technologies is an essential research publication that aims to present exemplary practices of technology use and their management in pedagogical purposes in learning and teaching environments The book also analyzes problems that may arise and develops policies on educational technologies and the exploitation of technology with pedagogical purposes as part of the discussion to solve these challenges

Featuring a wide range of topics such as augmented reality mass media and religious education this book is ideal for educators who want to use technology in class educational administrators who have responsibilities for developing policies on educational technologies and managing the use of them and researchers who want to carry out a deep investigation into the subject Additionally educational software developers academicians instructional designers curriculum developers education professionals and students will also benefit from the research contained within the book
