Muzamil,2018-08-31 In the era of social connectedness people are becoming increasingly enthusiastic about interacting sharing and collaborating through online collaborative media However conducting sentiment analysis on these platforms can be challenging especially for business professionals who are using them to collect vital data Sentiment Analysis and Knowledge Discovery in Contemporary Business is an essential reference source that discusses applications of sentiment analysis as well as data mining machine learning algorithms and big data streams in business environments Featuring research on topics such as knowledge retrieval and knowledge updating this book is ideally designed for business managers academicians business professionals researchers graduate level students and technology developers seeking current research on data collection and management to drive profit **Journal of Indian Education** ,1984 Preparing for Accreditation Prof. Satish Kumar Soni,2014-07-17 Improving and assuring the quality of professional educational services is the only last option left for forward looking educational service enterprises or colleges or universities for surviving with pride and creating delight in customer students For relatively younger economies like India and other Asian African countries quality assurance has become almost mandatory from both the point of views business growth and complying with the

requirements of regulatory agencies Many Asian countries have become provisional signatory members of Washington Accord for facilitating global mobility of graduates from universities of one country to another country for further education and or seeking employment opportunities Recently regulatory agencies of many developing countries have adopted outcome based professional education model for formulating criteria and evaluation procedures for quality assurance and accreditation certification The author while doing consultancy work in India has felt that faculty in general are not very much aware of the requirements of outcome based education model and therefore face difficulties in preparing self assessment reports and supporting evidence record files It is hoped that this book shall be of adequate help to faculty and management of professional education institutions and universities in understanding the requirements of accreditation and in making necessary preparations of application and documentation

OUTCOME-BASED CURRICULUM IN ENGINEERING EDUCATION

EARNEST, JOSHUA, GUPTA, SHASHI KANT, 2021-11-02 Engineering Education has emerged as a fast developing discipline in itself with universities across the world opening up exclusive Departments of Engineering Education which is also impacting the socio economic system in India Most of the engineering institutions in India are part of the hub and spoke university education system unique to India Scientifically developing the Outcome based Curriculum OBC uniformly across India has been a daunting task due to the dearth of an authentic book on OBC addressing the need of the Indian Engineering Education System This being the first book of its kind in India and with OBC serving as the Constitution of Outcome based Education OBE it will go a long way to address this need The unique feature of this book is that it is replete with examples to explain the various concepts of planning designing and implementing the OBC in engineering institutions Different aspects of Outcome based Teaching Learning OBTL and Outcome based Assessment OBA are also discussed vividly Apart from the examples weaved into the lucidly written seven chapters additional examples and important formats are provided in the Annexures another unique feature of this book Every engineering UG PG or Diploma teacher would be happy to possess a personal copy of this book for 24x7 access which will help to clear their doubts as it arises then and there TARGET AUDIENCE Technical Instruction Technical Teacher Trainers Curriculum Specialists Instructional Designers Education Policy Makers What the reviewers say The technical education has to adopt Outcome Based Curriculum and there was a dire need of authentic literature which would serve as a base document for scientifically developing OBC The book reflects the expertise of both the authors who have more than 30 years of experience in industry and academics in designing and implementing different variants of OBC for various technical education programmes Such a book will serve as a reference for future generations to avoid re inventing the wheel again and again Dr M P Poonia Vice Chairman AICTE National Institute of Technical Teacher Training and Research NITTTR Bhopal has been spearheading different forms of OBC for the last five decades in which the authors have contributed substantially Care has been taken such that this book will not only benefit the Indian engineering education system but also the engineering teaching fraternity at the international context
