Welcome To Eden Part:

Welcome to Your Designer Planet! Richard Leviton, 2007-09-05 We now live in the time of the Gaian hierophant This is the one who reveals and shows us how to relate to the sacred aspects of Gaia our planet Who is this hierophant Each of us when we join the campaign with Gaia against the desecration of our natural environment But first we have to discover what the Earth really is The Earth s thousands of sacred sites hold a secret they are functional parts of the planet s geomantic body consciousness nodes in the Earth s subtle body Each veils a Light temple each once known widely and remembered in myth and *Welcome to Your Designer Planet* documents 165 different kinds The Earth is not an accident of the cosmos but was designed specifically for humans as an extended Mystery temple primed to support and enhance our greater awareness And the designers intended that humans help maintain it Want to help the ecosystem and modulate global warming and climate change Plug yourself into the Earth s Light grid through your nearest sacred site and start helping Earth Mysteries researcher Richard Leviton presents a working model of the Earth s geomantic reality based on 24 years of research The world s myths are the doorway into this fantastic domain of the Earth s visionary geography showing us where to go and what to do and even what kinds of spiritual beings to expect to see The future of the Earth is in our hands Here are some pages from its design manual showing us how to fine tune our wonderful host planet

Welcome to Greater Edendale

Marc Epprecht, 2016-11-01 In the coming decades the bulk of Africa s anticipated urban population growth will take place in smaller cities Failure to manage environmental and public health problems in one such aspiring city Edendale has fostered severe pollution seemingly intractable poverty and gender inequalities that directly fuel one of the worst HIV AIDS pandemics in the world A nuanced and timely presentation of South African responses to changing times conditions opportunities and state interventions *Welcome to Greater Edendale* reconstructs nearly two centuries of contestation over land governance human rights identity housing sanitation public health and the meaning of development Bringing gender and health issues to the foreground Marc Epprecht reveals many unexpected or forgotten triumphs against environmental injustice but also unsettling continuities between colonial apartheid and post apartheid policies to spur economic growth Sheltered from the glare of national media and often overlooked by scholars smaller cities like Edendale attract political patronage corruption and violent protests while rapid climate change promises to further strain their infrastructure social services and public health A challenging innovative and thoughtful examination of the history and politics of South Africa *Welcome to Greater Edendale* questions the common assumptions embedded in environmental policy gender relations democracy and the neoliberal model of development in which so many African cities are ensnared
