Miller, 2004 These essays challenge the traditional picture of Christian origins Making use of social anthropology they move away from traditional assumptions about the foundations of Christianity to propose that its historical beginnings are best understood as reflexive social experiments *Is History Fiction?* Ann Curthoys, 2010-10 The relationship between history and fiction has always been a controversial one Can we ever know that a historical narrative is giving us a true account of what actually happened Provocative and fascinating this book is an original and insightful examination of the ways in which history is and might be written It traces History s double **HISTORY-I**, 2025-08-19 TP LAW SOLVED SERIES For LL B Bachelor of Law 5 Years Integrated Course First Semester Students of University of Lucknow [History and International Relations](#) Howard LeRoy Malchow, 2015-11-19 History and International Relations examines from a historian s perspective

[The Poetics of International Politics](#) Milan Babík, 2018-10-26 A cutting edge contribution to the aesthetic turn in international relations scholarship this book exposes the role of poetic techniques in constituting the reality of international politics It has two symmetrical goals to illuminate the nonempirical fictions of factual international relations literature and to highlight the real factual inspirations and implications of contemporary international relations fiction Employing narrative theory developed by Hayden White the author examines factual and fictional accounts of world affairs ranging from the anarchy narrative central to mainstream international relations research to novels by Don DeLillo and Milan Kundera Chapters analyzing factual literature flesh out its unacknowledged inventions while those dedicated to fiction explain its political roots and agenda Throughout the distinction between factual and fictional representations of international relations breaks down Social scientific narratives emerge as exercises in rhetoric the art and politics of persuasion through language Artistic narratives surface as real pedagogical lessons and exercises in political activism The volume challenges the autonomy of academic international relations as an exclusive purveyor of serious knowledge about world affairs and calls for active engagement with literary art It will be of interest to scholars of International Relations Political Theory Historiography Cultural Theory and Literary Studies and Criticism

and adapted to fit our new globalised world order
