Steele, 1846      *The Eclectic Magazine* John Holmes Agnew,Walter Hilliard Bidwell, 1846      *The Eclectic Magazine of Foreign Literature, Science, and Art* ,1846      *Chains of Jericho* Vivien Dean, 2021-02-06 Declan Jericho is a vampire with a purpose His best hope for success rests on the shoulders of a brilliant young cancer specialist but saving the undead isn't exactly the career path Dr Maya Sheldon has in mind When Dec kidnaps Maya from work the last thing she wants to do is help him Then she discovers what he wants her for to develop a cure for the mysterious illness killing the young vampires in his care Vampires or not she's unable to abandon them Her interest in Dec quickly shifts from professional to something more intimate but as their attraction grows darker secrets threaten their newfound relationship Dec has his own reasons for wanting the young vampires cured and he's not telling      **Bonded** Jessica Marchand, 2025-02-07 It has been centuries since humans and dragons have mixed and Prince Trann has heard all the rumors or so he thought When war threatens his beloved Emberi an unexpected offer is extended from the dragons However when Trann meets the liaison leader Ryth things do not go the way he planned Ryth's proud and sarcastic approach to the alliance challenges everything Trann knows about the strange beasts The situation becomes even more complex when the two become permanently bonded Can these two resolve their differences and find balance or are they going to drown in this dragon's bond      **Questioning Nature** Melissa Bailes, 2017-05-19 In the mid eighteenth century many British authors and literary critics anxiously claimed that poetry was in crisis These writers complained that modern poets plagiarized classical authors as well as one another asserted that no new subjects for verse remained and feared poetry's complete exhaustion Questioning Nature explores how major women writers of the era including Mary Shelley Anna Barbauld and Charlotte Smith turned in response to developing disciplines of natural history such as botany zoology and geology Recognizing the sociological implications of inquiries in the natural sciences these authors renovated notions of originality through natural history while engaging with questions of the day Classifications hierarchies and definitions inherent in natural history were appropriated into discussions of gender race and nation Further their concerns with authorship authority and novelty led them to experiment with textual hybridities and collaborative modes of originality that competed with conventional ideas of solitary genius Exploring these authors and their work Questioning Nature explains how these women writers imaginative scientific writing unveiled a new genealogy for Romantic originality both shaping the literary canon and ultimately leading to their exclusion from it      *Predator Turned Prey* Ravyn Crescent, 2005-04-27 The Comet Despair changed everything even creating a race of animal people Anasiens The humans and Anasiens formed a tentative alliance but one tragic day a war known as the human revolt forced the two species apart Once again slavery and trafficking is legal and rampant once again there is devastation in the land and once again

society is ruled by chains Years later a child is born of both sides Thirteen year old Hunter was trapped caged isolated alone enslaved and forced to hold the knowledge that it didn't have to be this way Sometimes you don't need a comet to change the world forever
