**House of Commons - International Development Committee: Implications for Development in the Event of Scotland Becoming an Independent Country - HC 692** Great Britain: Parliament: House of Commons: International Development Committee, 2013-12-19 The UK's aid programme much of which is delivered from Scotland is genuinely transformational The UK provided 8.7 billion of aid in 2012-13 but it is the quality of this aid not just its quantity which sets the UK apart As part of the UK Scotland makes a tremendous contribution to all this If Scotland were to become an

independent country its development agency would inevitably be a much smaller player From 2013 onwards the UK Government plans to spend 0.7% of Gross National Income on Official Development Assistance If Scotland were to become independent the UK's overall GNI and the amount of money it spends on ODA would fall Scotland has 8.3% of the UK's population share so we estimate that the UK's ODA would fall by around 8.3% or 1 billion DFID's work either its bilateral programmes or its funding to multilateral organisations would inevitably then be subject to cuts MPs are also concerned that during any transitional period the restructuring of DFID and the setup of an independent Scottish development agency would divert management attention towards restructuring and away from frontline delivery by both agencies In addition a significant proportion of DFID's workforce is based at its Scottish office in East Kilbride including a number of senior staff By contrast the number of jobs available with an independent Scottish development agency is likely to be relatively few or the new Scottish development agency would be heavily overstaffed The impact on jobs would therefore be substantial *The Scotland Bill* Great Britain: Parliament: House of Commons: Scottish Affairs Committee, 2011-03-21 Additional written evidence is contained in Vol 3 available on the Committee's website at [www.parliament.uk/treascom](http://www.parliament.uk/treascom) **Mail Order**
