THE ART OF DEFINING LIFE Adrian Gabriel Dumitru, Truth be told we want an over night change

in our lives There are many moments when the actual reality is very difficult to handle and looks like we have no escape at all We dream of a quantum jump even if we dont understand the concept very well In few words the reality sucks and we dream of a life that we will never have because deep inside us we dont really believe we will ever meet this reality We have a fake attitude that we are looking for change but this attitude is just a mask for our fears as them not to be seen So we wonder today if there is a way of how our lives can be changed in what we think that should be better for us Does it exists a system that we could follow and achieve our dream life But it must be a simple way otherwise we know that we will not follow the path Everything is happening is related to us and everything could happen is also related to us The magic answer because we are looking only for magic answers is the art of defining life Yes this is an art We need to start be honest with ourself and all the answers to simple questions as why am i fat because i eat to much why my partner is cheating on me because i did not knew to be that perfect partner that i had to be and the list of questions will go on We need to start defining what we dont like Once we understand that the change is in our powers and if we really want a change we will start the process of achieving the new life we dream at We dont need to go to a therapist we dont need to study motivational issues of social media and dont even need to read hundreds or thousands of books to start the change process The art of defining our lifes means that we have the courage to understand what we dont like and define very clear how our reality should look like The depression or what we call depression because many things are unclear in our minds is this huge gap between where we are now and where we want to be We are looking for a magic bridge that should help us go very easilly from one point to the other The process itself is a very simple one as long as we decide to be honest to us The art of defining yes is an art And also to live is an art Once we decide that we are brave enough to live our lifes the dream life the magic will happen cause all the magic is our powers

Spell Caster Clifton Elliott,2011-10-13 As author of this book I am a fiction lover especially fantasy fiction and I believe in bible prophecy I have put in everything about what I believe in this story All things are possible if we can acknowledge the facts I believe that no one can tell the future they can only show or tell you what they believe in and what they see The bible gives references as well as science about future changes that are going to take place such as War in the heaven s signs in the universe and earth and a one world order by a false deception I have been studying science and bible prophecy for twenty years Over the years some of these predictions have already taken place biblically and scientifically I believe that some day we ll be living in the Dark Age

Roundabout at Bangalow Shirley Walker,2015-11-23 Exploring four generations of life in Australia this intricate personal history shows the insularity of small towns rigid class and caste divisions and the effects of two world wars on Australian lives Told with humor and dry wit these extraordinary stories of pioneering struggles deep religious divisions and conflict within the family help navigate the history of Australia from the abundance of the eastern Byron Bay hinterland to the hardships of the northern soldier settler farm in North Queensland Fascinating and engaging this familial recollection is a revealing study of Australia s past

Panes of the Glass Ceiling Kerri Lynn Stone,2022-02-24 More than fifty years of civil rights legislation and movements have not ended employment discrimination This book reframes the discourse about the glass ceiling that women face with respect to workplace inequality It explores the unspoken societally held beliefs that underlie and engender workplace behaviour and failures of the law policy and human nature that contribute panes and pains to the glass ceiling Each chapter identifies an unspoken belief and connects it with failures of law policy and human nature It then describes the resulting harm and shows how this belief is not imagined or operating in a vacuum but is pervasive throughout popular culture and society By giving voice to previously unvoiced even taboo beliefs we can better address and confront them and the problems they cause
