Urdu Class 2 Pf Punjab Text Board:

(Re)Constructing Memory: Textbooks, Identity, Nation, and State James H. Williams, Wendy D.

Bokhorst-Heng, 2016-07-08 This book engages readers in thirteen conversations presented by authors from around the world regarding the role that textbooks play in helping readers imagine membership in the nation. Authors' voices come from a variety of contexts: some historical, some contemporary, some providing analyses over time. But they all consider the changing portrayal of diversity, belonging, and exclusion in multiethnic and diverse societies where silenced, invisible, marginalized members have struggled to make their voices heard and to have their identities incorporated into the national narrative. The authors discuss portrayals of past exclusions around religion, ethnicity, sexual orientation as they look at the shifting boundaries of insider and outsider. This book is thus about who we are, not only demographically but also in terms of the past, especially how and whether we teach discredited pasts through textbooks. The concluding chapters provide ways forward in thinking about what can be done to promote curricula that are more inclusive, critical, and positively bonding in increasingly larger and more inclusive contexts.

Consumable Texts in Contemporary India S. Gupta, 2015-02-23 Through what he terms bibliographical sociology, Suman Gupta explores the presence of English language publications in the contemporary Indian context, their productions, circulations, and readerships to understand current social trends.

Faith and Politics in South Asia Astha Chadha, 2024-11-18 This book explores the role of faith and politics in shaping the international relations of South Asia. Adopting a neo-classical realist framework and a discourse-historical approach to analyze how religious actors construct their political identities and interests through the interpretation of sacred texts or exegesis, the book makes several key contributions to the field of international relations. It introduces the concept of exegesis as a novel analytical tool to understand the role of religion in world politics. The book argues that exegesis is not only a theological exercise but also a political one as it shapes the worldviews, values, norms, and interests of religious actors. The author applies exegesis to three case studies of South Asia: the partition of India and Pakistan, the rise of Hindu nationalism in India, and the emergence of Islamic radicalism in Pakistan and resurging signs of the same in Bangladesh. The research then challenges the conventional assumptions of IR such as the secularization thesis, the clash of civilizations, and the rational actor model by showing how religious actors are not monolithic, homogeneous, or irrational but rather diverse, heterogeneous, and strategic. The book offers a nuanced and comprehensive understanding of the role of religion in world politics, especially in the context of South Asia. Highlighting the diversity and complexity of the religious landscape in South Asia, which is home to various faiths, sects, movements, and ideologies, this book will be of interest to academics studying global politics, international relations, Asian Studies, and studies on religion and foreign policy.

It includes a two volume textbook, a workbook for learning the mechanics of Urdu writing, a comprehensive teacher's manual, and an audio cassette. Aimed at North American children between the ages of four and six, Urdu for Children combines traditional and whole language instructional methods. The two volume textbook includes forty lessons, each structured around a story or poem that reflects the theme 'All About Me'. This theme was chosen because children in the primary division show the greatest enthusiasm for things that relate to themselves. The methodology outlined in the teacher's manual was specifically designed to promote the integration of listening, speaking, reading, and writing skills. The children listen to the story or poem recorded on the audio cassette or read by the teacher, repeat it in unison, and read it from the chart. Flash cards, role playing, and drawing are also used to reinforce vocabulary and comprehension. Developed by a team of trained school teachers with extensive backgrounds in teaching Urdu as a heritage language, Urdu for Children will help meet the needs of a rapidly growing Urdu speaking community in North America. *Urdu for children: pts. 1-2.
