Paine, Heather Y. Paine, 2012-12-06 This is the second edition of a successful title first published in 1983 and now therefore a decade out of date The authors consider the development of the right package for a particular food in a particular market from the point of view of the food technologist the packaging engineer and those concerned with marketing While the original format has been retained the contents have been thoroughly revised to take account of the considerable advances made in recent years in the techniques of food processing packaging and distribution While efficient packaging is even more a necessity for every kind of food whether fresh or processed and is an essential link between the food producer and the consumer the emphasis on its several functions has changed Its basic function is to identify the product and ensure that it travels safely through the distribution system to the consumer Packaging designed and constructed solely for this purpose adds little or nothing to the value of the product merely preserving farm or processor freshness or preventing physical damage and cost effectiveness is the sole criterion for success If however the packaging facilitates the use of the product is reusable or has an after use some extra value can be added to justify the extra cost and promote sales Many examples of packaging providing such extra value can be cited over the last decade *Dental Technician, General* U.S. Naval Dental School, 1962 *Cartons, Crates and Corrugated Board, Second Edition* Diana Twede, Susan E. M. Selke, Donatien-Pascal Kamdem, David Shires, 2014-12-22 New expanded second edition with key technical regulatory and marketing developments from the past 10 years in the packaging industry Covers the materials processes and design of virtually all paper and fiberboard packaging for end products displays storage and distribution New information on European and global standards

selection criteria for paperboard as well as emerging sustainability initiatives Explains recent tests measurements and costs with ready to use calculations Ten years ago the first edition of *Cartons Crates and Corrugated Board* quickly became the standard reference book for wood and paper based packaging Endorsed by TAPPI and other professional societies and used as a textbook worldwide the book has now been extensively revised and updated by a team formed by the original authors and two additional authors While preserving the critical performance and design data of the previous edition this second expanded edition offers new information on the technologies tests and regulations impacting the paper and corrugated industries worldwide with a special focus on Europe and Japan New information has been added on tests and novel designs for folded cartons as well as expanded discussions of paperboard selection for specific applications emerging barrier packaging food contact and migration and the dynamics and opportunities of corrugated in distribution systems Recent developments on recycling and sustainability are also highlighted

National Reference Manual of Pure Food & Drug Law Charles Wesley Dunn, 1912 The Packaging User's Handbook Frank A. Paine, 2012-12-06 The first version of this book *Packaging Materials and Containers* was published in 1967 and was revised extensively ten years later under the title *The Packaging Media* Some thirty or so authors were involved in producing the initial texts for these books and I must acknowledge their material much of which is still valid It is now thirteen years since *The Packaging Media* high time to take stock and incorporate the considerable advances in materials forms techniques and machinery that have taken place In 1977 wherever possible we asked the original authors to carry out the revisions but retirements and job changes have now eliminated over twenty of the original authors We have therefore appointed an Editorial Board to advise on this more extensive revision and I wish to thank them for their detailed and helpful assistance Dr C J Mackson and Professor Y Dagel for general comments and guidance on the overall plan and in particular the Introduction chapter 1 Graham Gordon and Harri Mostyn for assistance with much of Part D on Distribution Packages and Dennis Hine and Susan Selke for their work in respect of paperboard and plastics retail packaging respectively A major contribution was made by the seventh member of the Editorial Board David Osborne who advised in the area of glass
