WHAT TO WEAR

> 77 F
> 25 C

In warm waters you won't need a wetsuit. Unless you also wear a wetsuit in a sauna or to the beach - joke intended. However, we do recommend to protect yourself against the sun. This can be done by wearing one of our thinner Lycras.

22 C - 25 C

When the weather is a bit colder outside, windy, or the water is colder than usual, e.g. in mornings or evenings, we recommend to use one of our tops, or even a Shorty wetsuit, to enjoy more time on the water without starting to feel cold.

If the water temperature drops to 20-22 degree Celsius, it also becomes less enjoyable to surf with just e.g. a top, or a shorty. If you generally do not like coldish water, or if the winds in these waters are stronger, we think you might feel more comfortable in a shorty with long arms or even in a thinner fullsuit.

Water of this temperature generally feels cold. We therefore recommend to use a full suit, as it will allow you to spend more time on the water, making the most of your session.

This is rather cold water, but it should not limit you from enjoying a good session when the wind is blowing. We recommend to use a 5/4 wetsuit, however, if you do not usually feel very cold very quickly, or if you don't intend to spend too much time on the water, a 3/2 full suit could also suffice.
