community leaders and military personnel as well as for the general public A Non-Technical Guide to International Accounting Roger Hussey,Audra Ong,2019-11-08 Business has become more international and more complex Whether you are a manager a student or someone generally interested in corporate financial information you want information and you want to understand that information Companies in all countries are required to generate financial information if for no other reason than to settle their tax obligations If you are interested in the larger companies such as those listed on a stock exchange they must make financial information public and the nature and type of that information is strictly regulated Companies must comply with accounting standards Many countries use the International Accounting Standards issued by the IFRS Foundation This is a not for profit international organization that has developed a single set of high quality global accounting standards These standards can be complex but this book explains clearly the main requirements **Digital Financial Inclusion** David Mhlanga,2022-10-31 This book is unique in that it challenges scholarly views on financial inclusion and poverty reduction while also relating financial inclusion and poverty reduction to the Fourth Industrial Revolution The book deviates from the usual method of analyzing financial inclusion which relies on bank accounts or microcredit as success criteria and instead discusses how the Fourth Industrial Revolution is facilitating digital financial inclusion With a five fold goal this book investigates both past and present readings and understandings of poverty and financial inclusion To begin it provides a thorough introduction to the Fourth Industrial Revolution and financial inclusion in the context of the Fourth Industrial Revolution Second the book dives quite extensively into the theories of financial inclusion in the context of the Fourth Industrial Revolution Third the book reconstructs the theory of financial inclusion moving from traditional to digital financial inclusion highlighting the role of digital financial inclusion in the transition from an informal financial money market to a formal financial system The fourth goal is to evaluate the tools and effects of digital financial inclusion on poverty Finally it provides case studies of digital financial inclusion and the future of digital financial inclusion in emerging and developing countries This book will be of interest to academics students and practitioners in a range of disciplines including finance development economics and consumer economics **Financial Inclusion Regulatory Practices in SADC** Howard Chitimira,Tapiwa Warikandwa,2023-05-25 Against a background of calls to prioritise the improvement of financial inclusion in Africa this book provides an analysis of current financial inclusion measures in Southern Africa Evaluating the existing strengths and weaknesses of financial inclusion in Africa it identifies opportunities to improve inclusive financial services and aid poverty reduction in the region With a focus on South Africa Namibia Botswana and Zimbabwe as case studies for assessing current financial inclusion in the context of particular challenges faced by unbanked and underbanked customers who are easy targets for cybercriminals due to low levels of digital literacy it looks into the regulation and promotion of financial inclusion in Southern Africa The book explores financial inclusion in the context of digital transformation in the 21st century examining the regulation and promotion of financial inclusion in the

context of digital transformation as well as the challenges related to financial inclusion. Suggesting improvements to aspects of company law, securities and financial markets in the Southern African Development Community region, the book offers a comprehensive study on the regulation and promotion of financial inclusion in the Southern African Development Community region. It will be essential reading for students and academics researching financial inclusion, international economic law and development.

Agribusiness Julian Roche, 2019-08-06. Agribusiness offers a unique introduction to the business of agriculture: what agribusiness is, why it matters, what the role of technology is, how trade fits into the picture, what its key risks are, who is lending and investing and why, and what returns they are getting. It is both practical in orientation, focusing on the role of managers in the industry as well as that of lenders and investors, and international in scope, drawing on case studies and interviews with key figures all over the world. The text ranges across various agricultural commodities to stress that there is no one size fits all solution and successful management, lending or investment in agribusiness requires understanding specifics. Readers are introduced to the economics of the supply and demand of food, the role of agricultural trade, agricultural marketing and farm management along with key business aspects including: Main drivers of agribusiness value, Principal risks of agribusinesses, Agribusiness as an investment class and Agribusiness lending: why, who and how. This engaging textbook offers a complete guide to the international business of agriculture, which is ideal for all students, scholars and practitioners. A selection of eResources is also available to supplement this text and instructors will find PowerPoint slides, discussion questions, case studies and further teaching materials available to them.
