promotion of intelligent design today Michael Lienesch skillfully analyzes one of the most formidable political movements of the twentieth century Applying extensive original sources and social movement theory Lienesch begins with fundamentalism describing how early twentieth century fundamentalists worked to form a collective identity to develop their own institutions and to turn evolution from an idea into an issue He traces the emerging antievolution movement through the 1920s examining debates over Darwinism that took place on college campuses and in state legislatures throughout the country With fresh insights and analysis Lienesch retells the story of the 1925 Scopes monkey trial and reinterprets its meaning In tracking the movement from that time to today he explores the rise of creation science in the 1960s the alliance with the New Christian Right in the 1980s and the development of the theory of intelligent design in our own time He concludes by speculating on its place in the politics of the twenty first century In the Beginning is essential for understanding the past present and future debates over the teaching of evolution      **Teaching Anticommunism** Hubert Villeneuve,2020-04-16
