Harry Johnson, 2018-03-16 First published in the 1860s Harry Johnson's Bartenders Manual is part of the classic bar books and one of its oldest exemplars. The author has been one of the first bartenders who not only had general and wise thoughts about his profession but also committed his experiences and opinions to paper and wrote a teaching book for beginners and professionals. Doing this he laid the foundation for following generations and stands beside Jerry Thomas at the beginning of a long list of famous bartenders. In his book Harry Johnson carries the reader into times where it was obviously necessary to remind bartenders not to chew on a toothpick or a cigar when on a job interview, not to spit on the floor or pursue other bad habits. He gives advice how to conduct a bar as well as how to treat employees and guests, how to handle beer casks and wine bottles, what stock is needed in a bar or restaurant, how to keep the business books, and much more. The second half of the book contains recipes for cocktails, punches, bowls, and other drinks famous in USA and Europe during this time. There you can also find the presumably first mention of the Martini cocktail as well as instruction of how to mix absinthe and chill champagne. The Bartenders Manual is not only a window to the past; it also shows how professional some bartenders of that time pursued their business, a fact we almost forget or ignore as we connect the USA of the 19th century with dusty saloons and dirty beer glasses. Some parts of the book may seem out of date, who is still using blocks of ice or keeps guspirdors for his guests, but it is still a must have for professionals and enthusiastic hobby barkeepers and gives precious insights of the beginning of bar culture.
