The Woomera Manual on the International Law of Military Space Operations Jack Beard, Dale Stephens, 2024 The Woomera Manual on the International Law of Military Space Activities and Operations is the first comprehensive examination on international law of military space activities covering all aspects across times of peace tension or crisis and armed conflict It analyses the rapidly changing development of space by both states and NGOs

Weapons and the Law of Armed Conflict William H. Boothby, 2016-03-10 Bringing together the law of armed conflict governing the use of weapons into a single volume the fully updated Second Edition of Weapons and the Law of Armed Conflict interprets these rules and discusses the factors influencing future developments in weapons law After relating the historical evolution of weapons law the book discusses the important customary principles that are the foundation of the subject and provides a condensed account of the law that exists on the use of weapons The treaties and customary rules applying to particular categories of weapon are thereafter listed and explained article by article and rule by rule in a series of chapters Having stated the law as it is the book then explores the way in which this dynamic field of international law develops in the light of various influences The legal review of weapons is discussed both from the perspective of how such reviews should be undertaken and how such a system should be established Having stated the law as it is the book then investigates the way in which this dynamic field of international law develops in the light of various influences In the final chapter the prospects for future rule change are considered This Second Edition includes a discussion of new treaty law on expanding bullets the arms trade and norms in relation to biological and chemical weapons It also analyses the International Manuals on air and missile warfare law and on cyber warfare law the challenges posed by lethal autonomous weapon systems and developments in the field of information and telecommunications otherwise known as cyber activities

Madagascar Country Study Guide Volume 1 Strategic Information and Developments IBP, Inc., 2013-08 Madagascar Country Study Guide Strategic Information and Developments

A Guide to International Disarmament Law Stuart Casey-Maslen, Tobias Vestner, 2019-05-24 Disarmament is integral to the safeguarding and promotion of security development and human rights Hundreds of millions of dollars are spent each year on disarmament operations yet no comprehensive guide exists to explain clearly the international rules governing disarmament This book seeks to fill that gap It describes the international legal rules that govern disarmament and the operational political and technical considerations that govern their implementation This book aims to support compliance implementation and further development of international disarmament law Traditionally disarmament focused on weapons of mass destruction This remains a critically important area of work In recent decades the scope of disarmament has broadened to encompass also conventional weapons including through the adoption of rules and regulations to govern arms transfers and measures to eliminate specific munitions from stockpiles and to destroy explosive remnants of war There have also been four generations of programmes to address small arms and light weapons at national or sub national level through

disarmament demobilisation and reintegration DDR programmes during and following the end of armed conflict While an internationally accepted definition of disarmament does not yet exist it is widely agreed that disarmament encompasses or interrelates with prohibitions and restrictions on the development production stockpiling testing and transfer of weapons and on their destruction In addition to clarifying these elements chapters of this guide will also consider the relationship between disarmament and the law of armed conflict and with the United Nations Security Council human security public health and non state actors

The International Committee of the Red Cross and its Mandate to Protect and Assist Christy Shucksmith,2017-08-24 The purpose of this book is to consider the legality of the changing practice of the International Committee of the Red Cross ICRC It provides extensive legal analysis of the ICRC as an organisation legal person and humanitarian actor It draws on the law of organisations International Humanitarian Law International Human Rights Law and other relevant branches of international law in order to critically assess the mandate and practice of the ICRC on the ground The book also draws on more abstract human centric concepts including sovereignty as responsibility and human security in order to assess the development of the concept of humanity for the mandate and practice of the ICRC Critically this book uses semi structured interviews with ICRC delegates to test the theoretical and doctrinal conclusions The book provides a unique insight into the work of the ICRC It also includes a case study of the work of the ICRC in the Democratic Republic of Congo Ultimately the book concludes that the ICRC is no longer restricted to the provision of humanitarian assistance on the battlefield It is increasingly drawn into long term and extremely complicated conflicts in which civilians soldiers and non State actors intermingle In order to remain useful for the people on the ground therefore the ICRC is progressively developing its mandate This book questions whether on occasion this could threaten its promise to remain neutral impartial and independent Finally however it should be said that this author finds that the work of the ICRC is unparalleled on the international stage and its humanitarian mandate is a vital component for those embroiled in the undertaking of and recovery from conflict

The Law of Targeting William H. Cyberwar Jens David Ohlin, Kevin Govern, Claire Oakes Finkelstein, 2015 Cyber weapons and cyber warfare have become one of the most dangerous innovations of recent years and a significant threat to national security Cyber weapons can imperil economic political and military systems by a single act or by multifaceted orders of effect with wide ranging potential consequences Unlike past forms of warfare circumscribed by centuries of just war tradition and Law of Armed Conflict prohibitions cyber warfare

occupies a particularly ambiguous status in the conventions of the laws of war Furthermore cyber attacks put immense pressure on conventional notions of sovereignty and the moral and legal doctrines that were developed to regulate them This book written by an unrivalled set of experts assists in proactively addressing the ethical and legal issues that surround cyber warfare by considering first whether the Laws of Armed Conflict apply to cyberspace just as they do to traditional warfare and second the ethical position of cyber warfare against the background of our generally recognized moral traditions in armed conflict The book explores these moral and legal issues in three categories First it addresses foundational questions regarding cyber attacks What are they and what does it mean to talk about a cyber war The book presents alternative views concerning whether the laws of war should apply or whether transnational criminal law or some other peacetime framework is more appropriate or if there is a tipping point that enables the laws of war to be used Secondly it examines the key principles of jus in bello to determine how they might be applied to cyber conflicts in particular those of proportionality and necessity It also investigates the distinction between civilian and combatant in this context and studies the level of causation necessary to elicit a response looking at the notion of a proximate cause Finally it analyzes the specific operational realities implicated by particular regulatory regimes This book is unmissable reading for anyone interested in the impact of cyber warfare on international law and the laws of war

Military Necessity in International Cultural Heritage Law Berenika Drazewska, 2021-12-13 This book offers the first comprehensive scholarly analysis of the current meaning and scope of military necessity a key concept in the international legal framework for the protection of cultural heritage during armed conflicts since the adoption of the 1954 Hague Convention Academic discussions commonly view military necessity uniquely through the lens of international humanitarian or international criminal law In her book Berenika Drazewska presents a more comprehensive perspective examining developments across various strands of international law arisen since 1954 This novel approach demonstrates how international cultural heritage law affords a particularly strict meaning to military necessity As a result the relative waiver will only be available to belligerents very rarely in truly extraordinary circumstances Drazewska's *Military Necessity in International Cultural Heritage Law* engages a significant issue in this rapidly evolving field of international law the inclusion of necessity in regulation of the protection of cultural heritage during armed conflict after 1945 Its very inclusion was viewed as a major concession which is only multiplied because of the difficulties of its application on the ground This thorny issue has come to the fore again with large scale cultural losses inflicted during recent armed conflicts Elegantly written and scholarly in its approach this book places this question and possible answers to it within the broader sweep of international law and recent developments not only in international humanitarian law but state responsibility international criminal law and international criminal law It offers a significant and timely reexamination and reconceptualization of this important topic Prof Ana Filipa Vrdoljak UNESCO Chair in International Law Cultural Heritage Faculty of Law University of Technology Sydney

Dinstein, 2021-10-11 The Israel Yearbook on Human Rights an annual published under the auspices of the Faculty of Law of Tel Aviv University since 1971 is devoted to publishing studies by distinguished scholars in Israel and other countries on human rights in peace and war with particular emphasis on problems relevant to the State of Israel and the Jewish people The Yearbook also incorporates documentary materials relating to Israel and the Administered Areas which are not otherwise available in English including summaries of judicial decisions compilations of legislative enactments and military proclamations

Underground Warfare Daphné Richemond-Barak, 2018 Underground warfare a tactic of yesteryear has re emerged as a global and rapidly diffusing threat This book is the first of its kind to examine tunnel warfare in a systematic and comprehensive way addressing the legal issues while keeping in mind operational and strategic challenges Like many other aspects of contemporary warfare the renewed use of the subterranean in armed conflict presents a challenge for democracies wishing to abide by the law To Dr Richemond Barak this challenge has not only been under explored it is also largely underestimated by the community of states security experts and public opinion She analyzes traditional concepts of the laws of war as they relate to tunnels and underground operations contemplating questions such as whether tunnels constitute legitimate targets the assessment of proportionality in anti tunnel operations and the availability of advanced warning in this complex terrain She also identifies issues that are unique to underground warfare including those that arise when cross border tunnels burrow under a state s own civilian infrastructure

Tallinn Manual on the International Law Applicable to Cyber Warfare Michael N. Schmitt, 2013-03-07 The product of a three year project by twenty renowned international law scholars and practitioners the Tallinn Manual identifies the international law applicable to cyber warfare and sets out ninety five black letter rules governing such conflicts It addresses topics including sovereignty State responsibility the jus ad bellum international humanitarian law and the law of neutrality An extensive commentary accompanies each rule which sets forth the rule s basis in treaty and customary law explains how the group of experts interpreted applicable norms in the cyber context and outlines any disagreements within the group as to each rule s application

The Law of Armed Conflict Gary D. Solis, 2021-10-21 This book introduces students to the essential questions of the law of armed conflict and international humanitarian law

Practitioners' Guide to Human Rights Law in Armed Conflict Daragh Murray, 2016-11-17 Although the relationship between international human rights law and the law of armed conflict has been the subject of significant recent academic discussion there remains a lack of comprehensive guidance in identifying the law applicable to specific situations faced by military forces Providing guidance for armed forces and practitioners on the detailed application of international human rights law during armed conflict this book fills that gap Part 1 of the volume details foundational information relating to international human rights law and human rights institutions the types of operations that States armed forces engage in and how the law of armed conflict and international human rights law apply to regulate different situations Part 2 provides practical guidance as to the legal regulation of specific situations

including discussion of the conduct of hostilities detention operations humanitarian assistance cyber operations and investigations This book is the result of an in depth process involving both academic and practitioner experts in the law of armed conflict and international human rights law who were convened in meetings at Chatham House chaired by Elizabeth Wilmschurst Distinguished Fellow at Chatham House The group included Professor Francoise Hampson Essex University Professor Dapo Akande Oxford University Charles Garraway Fellow at Essex University Professor Noam Lubell Essex University Michael Meyer British Red Cross and Daragh Murray Lecturer at Essex University *Israel Yearbook on Human Rights, Volume 42 (2012)* Yoram Dinstein, 2021-10-11 The Israel Yearbook on Human Rights an annual published under the auspices of the Faculty of Law of Tel Aviv University since 1971 is devoted to publishing studies by distinguished scholars in Israel and other countries on human rights in peace and war with particular emphasis on problems relevant to the State of Israel and the Jewish people The Yearbook also incorporates documentary materials relating to Israel and the Administered Areas which are not otherwise available in English including summaries of judicial decisions compilations of legislative enactments and military proclamations Research Handbook on International Law and Cyberspace Tsagourias, Nicholas, Buchan, Russell, 2021-12-14 This revised and expanded edition of the Research Handbook on International Law and Cyberspace brings together leading scholars and practitioners to examine how international legal rules concepts and principles apply to cyberspace and the activities occurring within it In doing so contributors highlight the difficulties in applying international law to cyberspace assess the regulatory efficacy of these rules and where necessary suggest adjustments and revisions *Cyber Operations and the Use of Force in International Law* Marco Roscini, 2014-03-14 The internet has changed the rules of many industries and war is no exception But can a computer virus be classed as an act of war Does a Denial of Service attack count as an armed attack And does a state have a right to self defence when cyber attacked With the range and sophistication of cyber attacks against states showing a dramatic increase in recent times this book investigates the traditional concepts of use of force armed attack and armed conflict and asks whether existing laws created for analogue technologies can be applied to new digital developments The book provides a comprehensive analysis of primary documents and surrounding literature to investigate whether and how existing rules on the use of force in international law apply to a relatively new phenomenon such as cyberspace operations It assesses the rules of jus ad bellum and jus in bello whether based on treaty or custom and analyses why each rule applies or does not apply to cyber operations Those rules which can be seen to apply are then discussed in the context of each specific type of cyber operation The book addresses the key questions of whether a cyber operation amounts to the use of force and if so whether the victim state can exercise its right of self defence whether cyber operations trigger the application of international humanitarian law when they are not accompanied by traditional hostilities what rules must be followed in the conduct of cyber hostilities how neutrality is affected by cyber operations whether those conducting cyber operations are combatants civilians or civilians

taking direct part in hostilities The book is essential reading for everyone wanting a better understanding of how international law regulates cyber combat The Authority of the International Committee of the Red Cross Linus Jannek Mührel, 2024-02-12 This book conducts the first ever comprehensive study of the ICRC's interpretations and law ascertainties It analyses in detail their impact on the development of international humanitarian law and international law in general as well as the reasons for their impact This analysis involves the discussion of the ICRC's authority Is it legal or just factual authority The analysis also illuminates the direction that IHL and international law in general develops This insight sheds light on the question of the current type of international law i.e. what international law is and who makes it
