

**Westfalia Separator®
hydry®****Westfalia Separator® hydry® GSC 200**

Technical Data | Clarifier with self-cleaning bowl

This centrifuge has been designed for the clarification of beverages. With the patented Westfalia Separator® hydrostop bowl ejection system, this machine is suitable particularly for applications where the prime target is high yield. High solid contents likewise present no problem. The feed and discharge are in a closed system. The hydrohermetic feed ensures gentle treatment of the product. The centrifugal pump in the discharge generates

adequate pressure to convey the product, for example, into the storage tank. The feed and discharge are rated to suit the respective application.

The bowl is driven via the so-called "short spindle drive" which reliably ensures low-vibration running. The machine is driven by a 3-phase AC motor via a low-maintenance flat belt. Frequency converters are used to optimize the power consumption and avoid current peaks.

All product-contacting parts are made of stainless steel; the gaskets conform to the requirements of food operations. The separator has been designed in accordance with the "hygienic design" guidelines.

Westfalia Separator Controller Manual

Waldemar Gastoni Venturini Filho

Westfalia Separator Controller Manual:

The Motorboat Electrical and Electronics Manual John C. Payne, 2002 Motorboat Electrical and Electronics Manual covers all inboard engine boats from 20 to 120 coastal inshore and blue water vessels This complete guide to the electrical systems and the electronics for large and small pleasure boats and workboats is a must for all builders owners and operators whether they are concerned with new boats or older boats and their maintenance and upgrading Topics cover everything from diesel engines to refrigeration and lightning protection to batteries and metal corrosion User's Manual to the International Annual Reports Collection, 1989 **Petroleum Refining.
