Other studies of adolescents (e.g., van der Werf, 2005) have found that, although adolescents are more likely to be involved in sexual activity than are younger children, they are less likely to be involved in sexual activity than are young adults. This is likely due to the fact that adolescents are still developing physically and emotionally, and they are still learning about the risks of sexual activity.

The two models estimate the probability of being infected with a given parasite given each of the host types. The model compares the risk of infection between the two host types. The model also estimates the probability of being infected with a given parasite given each of the host types.

became organized around the principle of stereophony during the twentieth century But nothing about this not the invention
or acceptance or ubiquity of stereo was inevitable Nor did the aesthetic conventions technological objects and listening
practices required to make sense of stereo emerge fully formed out of the blue This groundbreaking book uncovers the vast
amount of work that has been required to make stereo seem natural and which has been necessary to maintain stereo s place
as a dominant mode of sound reproduction for over half a century The essays contained within this book are thematically
grouped under Audio Positions Listening Cultures and Multichannel Sound and Screen Media the cumulative effect is to
advance research in music sound and media studies and to build new bridges between the fields With contributions from
