## **Zimsec Co Zw:**

**Zimbabwe** Brian Raftopoulos, Tyrone Savage, 2004 The author is from the Institute of Development Studies at the University of Zimbabwe He examines the paradox ensuing from the Lancaster House Settlement at Zimbabwe's independence that whilst colonial rule was ended the framework was provided for continued white privilege on the basis of control of the economy by this elite and through them transnational capital He analyses the responses of the ruling including official elite the black petty bourgeoisie and the group associated with the former Rhodesian Front **Towards Inclusive**

**Education in Zimbabwe** Tsediso Michael Makoelle, Tsitsi Chataika, 2025-02-24 This book aims to provide a comprehensive review of the state of inclusive education in Zimbabwe since the adoption of the philosophy in 1994 While literature exists that accounts for the situation regarding special and inclusive education in Zimbabwe there is a need for a more thorough and complete understanding of the state of inclusive education in the country This book explores and reflects on the perspectives of various stakeholders within the Zimbabwean education system It offers a conceptual understanding of the implementation of inclusive education in a postcolonial and politically troubled Zimbabwe and provides recommendations for policy development and formulation as well as the development and strengthening of inclusive teaching and learning practices The insights offered in this book could have a significant impact on clarifying the roles of stakeholders and ensuring that education provision leads to student support that addresses the needs of all students in Zimbabwe **Refugee Learner**

**Experiences. A Case Study of Zimbabwean Refugee Children** Lawrence Meda, 2017-09 This study is a presentation of Zimbabwean refugee learner experiences Children escaped political persecution and economic problems which affected Zimbabwe in the year 2008 Many of these children were abused and witnessed traumatic experiences their close relatives and neighbours being executed in cold blood This study was guided by three critical questions i who are the Zimbabwean refugee learners ii what were Zimbabwean refugee learners migration experiences and iii what were Zimbabwean refugee learners school experiences The study employed Bronfenbrenner's Social Ecological Model as its overarching theoretical framework Each stage of the refugee experience was described at each point in time [Handbook of Research on Inequities in Online Education During Global Crises](#) Kyei-Blankson, Lydia, Blankson, Joseph, Ntuli, Esther, 2021-05-07 In response to the COVID 19 pandemic many educational institutions implemented social distancing interventions such as initiating closure developing plans for employees to work remotely and transitioning teaching and learning from face to face classrooms to online environments The abrupt switch to online teaching and learning for the most part has been a massive change for administration faculty and students at traditional brick and mortar universities and colleges as concerns regarding the pedagogical soundness of this mode of delivery remain among some stakeholders Not only that but the switch has also revealed the inequities in the system when it comes to the types of students universities serve It is important as institutions move forward with online instruction that consideration be made about all students and what policies and strategies need to

be put into place to help support and meet the needs of all constituents now or when unprecedented situations arise The only way this can be done is by documenting the experiences through the eyes of faculty who were at the frontline of providing instruction and advising services to students The Handbook of Research on Inequities in Online Education During Global Crises brings to light the struggles faculty and students faced as they were required to switch to online education during the global COVID 19 health crisis This crisis has revealed inequities in the educational system as well as the specific effects of inequities when it comes to learning online and the chapters in this book provide information to help institutions be better prepared for online education or remote learning in the future While highlighting topics such as new educational trends remote instruction diversity in education and teaching and learning in a pandemic this book is ideal for in service and preservice teachers administrators teacher educators practitioners stakeholders researchers academicians and students interested in the inequalities within the educational systems and the new policies and strategies put in place with online education to combat these issues and support the needs of all diverse student populations *Catalogue* ,2002

presided over the demise of education and covers a wide range of topics such as violence against teachers poor salaries student activism minority languages and curriculum innovations This volume argues that the regime has used education as a tool for repression Curriculum innovations introduced and implemented in Zimbabwe have little to do with improving the performance of the learners and more to do with stopping teachers from pushing the regime change agenda Consequently this has resulted in a nation in crisis marked with high turnover poor economy and mass exodus of teachers and learners The contributors to this volume make various suggestions which could recenter education towards addressing the experiences of the learners as opposed to being used as a tool to push repression and thwart democracy Corruption Within Government Departments Workshop ,2001 LWATI ,2007 *Some Developments in Research in Science and Mathematics in Sub-Saharan Africa* Lorna Holtman,2008 Much attention in late developing countries is given to providing access to studies which allow school leavers to enter science and technology related careers These programmes are driven by the belief that graduates will then substantially contribute to the developmental needs of their countries But is providing access to institutions enough Students in developing countries often come from school environments lacking in resources human physical and financial This book in a number of chapters reviews research related to the crucial dimension of epistemological access to the disciplines of import which students need as much as institutional access in order to improve their chances of success A significant feature of this collection s research studies is that their empirical bases are highly localised covering areas such as research methods access curriculum instruction and assessment and the relevance of science and mathematics education in Zimbabwe Uganda Swaziland South Africa Namibia Malawi Ghana and Lesotho This volume provides invaluable insights and will be of relevance to researchers policy makers and lecturers interested in these research outcomes in Sub Saharan Africa It is the outcome of a doctoral research capacity development project the Graduate Studies in Science Mathematics and Technology Education GRASSMATE Zimbabwe Corporate Directory ,2005 **Covid-19 and the Dialectics of Global Pandemics in Africa** Munyaradzi Mawere,Bernard Chazovachii,2021-10-01 The prevalence of global pandemics has been timeless and universal In 1918 the Spanish Flue grounded Spain and her neighbours In 1997 2014 and 2020 the Ebola virus wreaked havoc in West Africa in the same manner that polio had ravaged the globe Since 2019 the Coronavirus has forced most economies onto a downward spiral Despite concerted global attempts at observing World Health Organization guidelines the Coronavirus has been changing peoples lives forcing most economies onto their knees endangering lives and livelihoods making a mockery of global medicine and causing the widespread despair and helplessness that has come to be known as the new normal Unlike the other pandemics the mayhem complexities and dialectics caused by Covid 19 have been matchless requiring a systematic study and necessitating a volume like this one The volume s 16 well researched chapters argue that despite Covid 19 s enormous lessons and predictions about even greater future pandemics humanity can ill afford to relent in its determination to conquer the pandemic in the same way that human resolve has

defeated past pandemic As such the volume provides hope and direction to the global community on how best to deal with Covid 19 and pandemics of similar or even higher magnitude in the future **Moto** ,2001 **BoldAds Yellow Pages** ,2007
