Morgan-Ellis, Kay Norton, 2024 The Oxford Handbook of Community Singing shows in abundant detail that singing with others is thriving. Using an array of interdisciplinary methods, chapter authors prioritize participation rather than performance and provide finely grained accounts of group singing in community music therapy, religious, and music education settings. Themes associated with protest, incarceration, nation, hymnody, group bonding, identity, and inclusivity infuse the 47 chapters. Written almost wholly during the 2020-21 COVID-19 pandemic, the Handbook features a section dedicated to collective singing facilitated by audiovisual or communications media-mediated singing, some of it quarantine-mandated. The last of eight substantial sections is a repository of new theories about how group singing practices work. Throughout, the authors problematize the limitations inherited from the Western European choral music tradition and report on workable new remedies to counter those constraints. **Technology Manual**, 2008 Technology Manual Contains detailed tutorial instructions and worked-out examples, exercises for TI-83/84 Plus Graphing Calculator v Excel including PHStat, an Excel plug-in v SPSS v Minitab
