to shape the sector's growth before the onset of the downturn. The following activities appear to be promising:

- **Build equity in education** even after an education system's crash to avoid the long-term consequences that inequality may impose later. It will take several generations to fix this. The results should show that, of all social investments made in the middle, while the rest of the population is in the hands of the market, the return is the highest. This is the only way to ensure that the country's growth will be sustainable.

bench and the difficult decisions faced by a judge tasked with assessing the mental health of a woman who has killed her own children Relatively few judges have publicly shared the thought processes behind their decision making Tough Cases makes for fascinating reading for everyone from armchair attorneys and fans of Law and Order to those actively involved in the legal profession who want insight into the people judging their work Public Documents of the State of Maine; Being the Reports of the Various Public Officers and Departments Maine,1914 Reports New Jersey. Reporting from the Front Brian Best,2014-11-30 When the war was declared in August 1914 one of the first acts to be implemented by the politicians and military was a strict censorship on the newspapers As the poacher turned gamekeeper Winston Churchill said The war is going to be fought in a fog and the best place for correspondence about the war is London The military sought to have one of their officers dubbed Eyewitness to be the official spokesman to enable them to control what the newspapers could print In the early stages of the war there were many reporters on the Continent who were evading military arrest and sending back reports about the reality of the situation Several volunteered with the various ambulance services just to disguise their real purpose but all were eventually banished Having finally cleared all reporters from fighting area the military was persuaded to allow a small number of accredited war reporters to be chaperoned around the battle fronts They were closely watched and their reports thoroughly scrutinised until they eventually became almost a part of the Headquarters hierarchy Later diaries and letters revealed how many of them really felt and they had to bear the post war shame of not writing the truth The Western Front was not the only front in this world war Reporters found censorship less rigidly applied on the Eastern Front Palestine and Italy One correspondent whose reports famously brought about the sacking of the campaign commander and the ending of the fruitless and bloody Gallipoli Expedition bravely broke ranks and was finished as a war reporter War reporting was not confined to print The emergence of photographers and cinematographers on the battlefield has left us with an extraordinary record Unlike their writing brothers the photographers could get close to the action and shoot what they liked The resultant film was of course censored but thankfully nothing was discarded and museum archives are full of their stunning work Having been the pre war stars of their newspapers the war reporters experienced a post war wave of anger and cynicism which took years to overcome *Engineering News* ,1915
