Cyprus and the Financial Crisis John Theodore, Jonathan Theodore, 2016-01-12 The 2012 2013 economic crisis in the Republic of Cyprus is commonly attributed to a number of factors including the exposure of Cypriot banks to over leveraged local property companies the knock on effect of the Greek government debt crisis and international credit rating agencies downgrading the Cypriot government s bond credit status What followed was unexpected and controversial a bailout on condition of a one time bank deposit levy on all uninsured deposits in the country s second largest bank the Cyprus Popular Bank and on the uninsured deposits of large proportion of the island s largest commercial bank the Bank of Cyprus Many have questioned the implications of Cyprus ties with the

Russian financial system as well as the draconian and unprecedented bailout terms imposed on the Cypriot population by the Eurozone. There has been little written from the Cypriot perspective on these events. This book presents a study of the events surrounding the recent Cypriot Financial Crisis and its impact on the Eurozone. It incorporates insights from leading protagonists in the Cypriot government and banking sectors and focuses on qualitative research to assess the events that formed the backdrop of the crisis. The book analyzes the policies of many public and private institutions and presents the crisis alongside other Eurozone bailouts to compare and contextualize the ongoing issues. Cyprus and the Financial Crisis also explains the political and historical backdrop of the events including the wider Cypriot experience since the 1974 invasion and the unravelling financial relationship between Cyprus, Greece and Russia. It incorporates the views of Cypriots from a wide and diverse spectrum and presents the resilience of the island in fighting back to beat forecasts for recovery helped by the Eldorado of gas finds off its southern shores. Can we solve big public problems anymore? Yes, we can. This provocative and inspiring book points the way. The huge challenges we face are daunting: indeed, climate change, crumbling infrastructure, declining public education and social services. At the same time, we've come to accept the sad notion that government can't do new things or solve tough problems: it's too big, too slow, and mired in bureaucracy. Not so, says former public official now Harvard Business School professor Mitchell Weiss. The truth is, entrepreneurial spirit and savvy in government are growing, transforming the public sector's response to big problems at all levels. The key, Weiss argues, is a shift from a mindset of Probability Government, overly focused on safe solutions and mimicking so-called best practices, to Possibility Government. This means public leadership and management that's willing to boldly imagine new possibilities and to experiment. Weiss shares the three basic tenets of this new way of governing: Government that can imagine. Seeing problems as opportunities and involving citizens in designing solutions. Government that can try new things. Testing and experimentation as a regular part of solving public problems. Government that can scale. Harnessing platform techniques for innovation and growth. The lessons unfold in the timely episodes Weiss has seen and studied: the US Special Operations Command prototyping of a hoverboard for chasing pirates; a heroin hackathon in opioid-ravaged Cincinnati; a series of experiments in Singapore to rein in Covid-19 among many others. At a crucial moment in the evolution of government's role in our society, *We the Possibility* provides inspiration and a positive model, along with crucial guardrails to help shape progress for generations to come. **The Global Community**

Return to the Shadows Alison Pargeter, 2016-09-22 The Arab Spring heralded a profound shift in the Middle East bringing to power Islamist movements which had previously been operating in the shadows The Muslim Brotherhood stormed to victory in Egypt and emerged as a key player in Libya's nascent political arena Meanwhile An Nahda found itself catapulted into power as the head of Tunisia's coalition government For a while it looked as though the region was entering the dawn of a new Islamist age But navigating their respective countries through difficult and painful transitions ultimately proved too challenging for these forces and just as suddenly the Brotherhood was dramatically overthrown in Egypt and left severely weakened in Libya In Tunisia An Nahda managed to pull itself through the crisis but its failure to articulate and deliver the hopes and aspirations of a large section of Tunisian society damaged its credibility In this authoritative account

Alison Pargeter expertly charts the Islamists ascent and subsequent fall from power Based on extensive research and interviews with high ranking members of the Brotherhood and An Nahda Pargeter offers a comparative analysis of the movement in North Africa since the Arab Spring and outlines the consequences of the Brotherhood s decline on both the region and the wider Islamist political project *China's Maritime Silk Road Initiative and South Asia* Jean-Marc F.
