*Tourism before, during and after Corona* Christian J. Jäggi, 2022-09-12 International and domestic tourism changed not only as a result of the Corona pandemic but even before As a result of Covid 19 international and global tourism has temporarily collapsed in most countries but in many countries such as Austria or Switzerland domestic tourism has increased The big question is whether the slump in global tourism is temporary or whether an actual trend reversal is on the horizon In favour of the former is the fact that growing middle classes in Asia but also Latin America and Africa have greater financial means and more and more people are vaccinated against Covid 19 in favour of the latter are the many ecological constraints and the fight against climate change but also the emergence of new mutations in the Corona virus Based on the development of tourism since the turn of the
