**Cruise Tourism in Polar Regions** Michael Lück, Patrick Timothy Maher, Emma J. Stewart, 2010 Cruises are the primary form of tourism in the Polar Regions and cruise ship tourism in both the Arctic and Antarctic is expanding rapidly The industry has moved beyond its infancy and is now entering a maturing phase with increased numbers and types of vessels more demanding routes and more regular and predictable patterns of activity The increase in cruise activities and the associated risks of accidents as well as the potential and actual impacts of the large numbers of tourists in the polar regions bring with it management challenges for sustainable use of these regions This book discusses critically the issues around environmental and social sustainability of the cruise industry in Polar Regions Authors from Canada USA Europe Australia and New Zealand are experts in their respective fields and take an innovative critical and at times controversial approach to the subject Higher Education Challenges in South-East Asia Kahl, Christian, 2020-10-23 Over the last decade many local students have preferred to study overseas This has caused governments to announce the creation of programs and developments in the higher education sector to upgrade South East Asia to a leading education hub Moreover many governments declared that they would work on the insurance of learning to increase the quality of the degrees and the teaching itself This has led many to question the results of these declarations Higher Education Challenges in South East Asia provides an overview of what has been happening over the last ten years in higher education in South East Asia It also works to solve the challenges in modern education such as the impacts of digitalization globalization and Generation Y and Z learning styles Covering topics that include globalization educational technologies and comparative teaching this book impacts academic institutions policymakers government officials university and college administrators and leaders academicians researchers and students Examining Enron United States. *Creating Wilderness* Patrick Kupper, 2014-07-01 The history of the Swiss National Park from its creation in the years before the Great War to the present is told for the first time in this book Unlike Yellowstone Park which embodied close cooperation between state supported conservation and public recreation the Swiss park put in place an extraordinarily strong conservation program derived from a close alliance between the state and scientific research This deliberate reinterpretation of the American idea of the national park was innovative and radical but its consequences were not limited to Switzerland The Swiss park became the prime example of a scientific national park thereby influencing the course of national parks worldwide Government Reports Announcements & Index, 1996 APAIS 1991: Australian public affairs

Allen,2019-04-02 The world's fourth largest island with a unique biological and physical endowment Madagascar is home to an extraordinary insular civilization that has struggled for more than a century against external domination In this sensitive introduction to the Indian Ocean's great island Philip Allen shows how family affinities and community loyalties at the foundation of Madagascar's culture have influenced Malagasy nationalism and forged islandwide traditions These same principles have nonetheless engendered social cleavages and resistance to economic and political change In chapters on modern Madagascar Allen analyzes the inability of a series of regimes to maintain authority among a people deeply bound to rituals of communication with their spiritual environment He demonstrates how the first Malagasy Republic became stigmatized by its lingering identification with French colonialism and how the nationalist revolution in 1972 soon hardened into autocratic radicalism Allen explores the complex challenges facing Madagascar's resurgent democratic forces including a need to conserve the island's irreplaceable biodiversity and to facilitate authentic participation in public affairs without offending ancestral customs and local precedents Finally he discusses efforts to end Madagascar's economic and political dependence and to improve living conditions for its tragically impoverished population      Flight 93 National Memorial, General Management Plan ,2007

**Offshore Energy Law** Ignacio Herrera Anchustegui,Madelene Taylor,Eduardo G Pereira,Eddy Wifa,2025-05-29 This book examines the regulatory environmental financial socio legal and safety aspects that shape offshore energy infrastructure projects and their operation The marine environment holds vast resources to provide energy solutions for humankind The sustainable development of such offshore energy resources is one of the most pressing challenges posed by the energy transition Whereas offshore hydrocarbons have been explored and extracted for more than a century the offshore renewable industry is rapidly expanding with lawmakers increasingly looking to the oceans for significant energy development Offshore spaces now amalgamate mature and emerging energy industries creating a pressing need to identify synergies and regulatory challenges However and despite the pivotal role offshore energy is to play in the future the interaction synergies and conflicts arising between these regulatory socio legal environmental and financial dimensions of offshore energy are often not discussed within the energy law scholarship This book aims to fill this evident gap in existing energy law research to distil critical legal lessons from traditional offshore energy sectors to encourage best practice regulation of offshore energy net zero industries Offshore Energy Law provides a functional analysis that covers the life cycle of offshore energy developments including renewable and hydrocarbons within the broader context of the energy crisis and energy transition debates Written and edited by leading global offshore energy experts the book brings together a global and sectoral comparative perspective to central offshore energy topics such as licensing socio legal challenges and opportunities safety and ecological governance and the use of marine maritime spatial planning      **Daily Graphic** Elvis D.
