Liminality in Tourism Robert S. Bristow, Ian Jenkins, 2021-09-05 Liminality is not typically associated with tourism even though it can be viewed as an intrinsic element of the social cultural experiences of tourism Liminality in Tourism Spatial and Temporal Considerations

aims to build upon the tradition of liminality as expounded in social and anthropological disciplines elaborating on the theoretical principles and concepts found within certain aspects of the tourist journey and tourist product The emergence of post modern society has impelled a change in the tourist gaze towards a more experiential and adventuresome globalised experience An important aspect of the tourist phenomenon of liminality is where a transformative experience is triggered by entering a liminoid tourist space leaving the tourist permanently psychologically transformed before returning to normalised society The narrative provides a new perspective on the tourist experience with a provocative examination into the multidimensional aspects of tourism by exploring tourism within the spatial and temporal aspects of liminal landscapes Covid 19 has further changed the rubric of tourism Until the current pandemic tourism has basically been a fun experience In a post pandemic world however the tourist is now facing an unknown future which will almost certainly affect tourism liminality This book presents the reader with a wealth of examples and case studies closely illustrating the association between tourism and liminal experiences The geographical perspectives explore the more subconscious outcomes of destination and tourist product consumption The book should be a useful reader to tourism geography where the theory of liminality can be synthesized into tourist experiences The chapters in this book were originally published as a special issue of the journal *Tourism Geographies* Maldives Country Study Guide - Strategic Information and Developments IBP USA,2012-03-03 *Maldives Country Study Guide Strategic Information and Developments Volume 1 Strategic Information and Developments* **Maldives Investment and Business Guide Volume 1 Strategic and Practical Information** IBP USA,2013-08 Singapore Education System and Policy Handbook **Sustainable Tourism IV** C. A. Brebbia,F. D. Pineda,2010 Tourism has become a major international industry with many countries all over the world relying on the income it produces Because it is a major source of finances and employment government and other institutions actively promote tourism regardless of the impact on the environment ecology and social structure of the region The demands of tourism can contribute to the destruction of the natural and cultural environment upon which it depends The natural and cultural landscape s capacity to accommodate the local and worldwide effects of tourism the typology thereof and its implications for the economy and society constitute very important study objectives The development of tourism can result in the degradation of natural landscapes that paradoxically attract tourists to such areas Featured topics include Tourism Strategies Tourism as a Tool of Development Tourism Impact Tourism and Protected Areas Rural Tourism Community Involvement IT and Tourism Climate Change and Tourism Environmental Issues Art Architecture and Culture Modelling Emergent Strategies for Tourism Development Landscape and Tourism Tourism and Urban Planning **General Agreement on Trade in Services** ,1997 General Agreement on Trade in Services: Examination of the Schedules of Commitments Submitted by African Trading Partners, Inv. 332-399 , Tour Guides at Memorial Sites and Holocaust Museums Anja Ballis,2022-05-23 In this volume contributors reflect on how to teach and mediate difficult history from the perspectives of guides Too often their activities are

undervalued and taken for granted Guides represent an important often forgotten group of educators This volume takes a global view on guiding at memorial sites and museums in Europe North America and South Africa The contributors to this volume show from different research traditions that it is worth understanding more about the guides personal interests their motivations and their concept of guiding Authors apply methodologies from the social sciences to describe the guides point of view Complementing the various approaches in tour guide research a detailed linguistic analysis sheds light on a survivor s testimony echoed in the guides language The studies gathered in this volume open up an orientation for further approaches to tour guiding based on and centered around authentic materials from guides
