World Regional Geography** Erin H. Fouberg, William G. Moseley, 2017-12-27 Understanding World Regional Geography
UWRG is a course designed to teach students to think and apply geographic concepts long after the course is over Author
Erin Fouberg draws from her expertise in geography education and research in student learning to create a product that has
a strong pedagogical framework designed to engage students and deepen their understanding of the world by having them
DO Geography UWRG includes features that help students learn to read cultural and physical landscapes ask geographic
questions apply geographic concepts and make connections It integrates 25 threshold concepts and teaches students how
geographers apply these concepts and asks them to apply these concepts themselves This enables them to grasp the
complexities of the world and provides them with the knowledge and thinking skills necessary to understanding it UWRG is
the first introductory course to integrate ESRI ArcGIS Online thematic maps enabling students to engage with course
materials see patterns and answer geographic questions **The Middle East and North Africa** Alasdair
Drysdale, 2024-10-15 This contemporary text the first in over a decade on the region presents the geography of the Middle
East and North Africa defined as the Arab World Israel Turkey Iran and Afghanistan Thematically organized the book's
eleven chapters focus on the region's physical and climatic setting demographic characteristics migration patterns religious

and linguistic diversity political map offshore claims oil and gas resources and subregions and states Within this framework Drysdale emphasizes pressing current problems the impact of climate change in a region where some areas already suffer from extreme summer heat and aridity the challenge of providing additional water in a region where per capita availability of freshwater is already the lowest in the world the impact of high fertility and rapid population growth in a fragile environment where economies are often unable to absorb young workers entering the labor force the looming prospect of an aging population the effects of out and in migration the diverse impact and role of Islam in daily and public life the integrative consequences of linguistic and ethnic diversity the evolution and imperfections of the political map ongoing territorial and boundary disputes that often have global repercussions external dependence on the region's prolific oil and gas resources and the extreme regional inequalities associated with their presence or absence This timely and insightful analysis is essential reading for students of the region who need a better understanding of key regional characteristics challenges and issues

West African Worlds Reginald Cline-Cole, Elsbeth Robson, 2016-02-17 *West African Worlds* provides a critical assessment of social economic and political change in Africa's most populous and arguably most externally focused region With an emphasis on globalisation and modernisation case studies and commentary are integrated throughout to highlight the concerns and issues of the region Enriched by an impressive mix of West African voices this text combines theory and application with policy and practice to address socio economic change the pursuit of livelihoods and development within West Africa

Alternative Capitalisms: Geographies of Emerging Regions Robert Gwynne, Denis Shaw, Thomas Klak, 2014-05-12 This book aims to examine the effects of globalization and economic and political transformations in those parts of the world which are now regularly referred to as emerging regions These are Latin America and the Caribbean East Central Europe and the former Soviet Union and East Asia This book breaks new ground in three areas First of all it develops a critique of the use of the term emerging regions for geographers and social scientists and relates this to world systems theory Secondly it explores the development trajectories and challenges of countries in this so called emerging world countries that will be crucial to the evolution of the world economy in the twenty first century Thirdly it compares and contrasts the pathways of both economic and political change in the three world regions under focus This is a unique approach in terms of books published in both geography and the social sciences Within the context of the three world regions the book combines historical and contemporary analysis of the evolving world system In these regions we are concerned to understand the historical expansion and extension of capitalism and how its contemporary forms of production exchange and regulation are evolving The authors believe that at the present time these processes have produced alternative capitalisms economic and associated developments which while assuredly capitalist differ in various ways from those typical of the capitalist West or core economies of North America and Western Europe

Assault on Rural Poverty Haileleul Getahun, Hailemariam Getahun, 2001 In *Assault on Rural Poverty* Haileleul Getahun analyzes the various causes of rural

poverty and constraints impeding increased agricultural productivity during the last four decades in Ethiopia under three different regimes Getahun examines the feudalistic system under Emperor Haile Selassie the command economic system of the military junta led by Mengistu Haile Mariam and the current capitalist system of the Federal Republic of Ethiopia led by Meles Zenawi Getahun discusses the lessons drawn from Ethiopian experience during these three regimes as well as from other African and Asian countries These provide the basis for recommending a small farmer led agricultural and rural development strategy that if implemented would alleviate rural poverty in Ethiopia The author maintains that the keys for successful development are the provision of institutional savings and credit for small scale farmers and small business owners the deep involvement of the community in project planning implementation evaluation and sharing of the benefits and the use of development support communication for motivation information dissemination and training Getahun argues strongly that ethnic politics in Ethiopia are destructive to Ethiopian society and militates against sustainable development Rather the path to peace and sustainable development requires that ethnic politics be scrapped and replaced by a genuinely democratic and widely acceptable system of governance

Rethinking Development Geographies Marcus Power, 2004-08-02

Development as a concept is notoriously imprecise vague and presumptuous Struggles over the meaning of this fiercely contested term have had profound implications on the destinies of people and places across the globe Rethinking Development Geographies offers a stimulating and critical introduction to the study of geography and development In doing so it sets out to explore the spatiality of development thinking and practices The book highlights the geopolitical nature of development and its origins in Empire and the Cold War It also reflects critically on the historical engagement of geographers with the Tropics the Third World and the South The dominant economic and political philosophies that shape the policies and perspectives of major institutions are discussed The interconnections between globalization and development are highlighted through an examination of local national and transnational resistance to various forms of development The text provides an accessible introduction to the complex and confusing world of contemporary global development Informative diagrams cartoons and case studies are used throughout While exploring global geographies of economic and political change Rethinking Development Geographies is also grounded in a concern with people and places the view from below the views of women and the view from the South
