Confucianism as a World Religion Anna Sun, 2013-04-21 Is Confucianism a religion? If so, why do most Chinese think it isn't? From ancient Confucian temples to nineteenth-century archives to the testimony of people interviewed by the author throughout China over a period of more than a decade, this book traces the birth and growth of the idea of Confucianism as a world religion. The book begins at Oxford in the late nineteenth century when Friedrich Max Müller and James Legge classified Confucianism as a world religion in the new discourse of world religions and the emerging discipline of comparative religion. Anna Sun shows how that decisive moment continues to influence the understanding of Confucianism in the contemporary world, not only in the West but also in China, where the politics of Confucianism has become important to the present regime in a time of transition. Contested histories of Confucianism are vital signs of social and political change. Sun also examines the revival of Confucianism in contemporary China and the social significance of the ritual practice of Confucian temples. While the Chinese government turns to Confucianism to justify its political agenda, Confucian activists have started a movement to turn Confucianism into a religion. Confucianism as a world religion might have begun as a scholarly construction, but are we witnessing its transformation into a social and political reality? With historical analysis, extensive research, and thoughtful reflection, *Confucianism as a World Religion* will engage all those interested in religion and global politics at the beginning of the Chinese century.

Our Religions Arvind Sharma, 2011-03-15 Each religion is described by someone who is committed to that religion but who is also fully at home in the academic study of religion. John Hick, author of *An Interpretation of Religion: Human Responses to the Transcendent*, leading experts in the great living religions present their own faith traditions. The volume surveys the history and teachings of Hinduism, Buddhism, Confucianism, Taoism, Judaism, Christianity, and Islam and describes the issues these religious traditions face today. Thought-provoking and soul-stretching, *The Gazetteer* provides viewpoints enough to keep the reader alert and engrossed. Christian Century, "Splendid in every respect." Huston Smith, author of *The World's Religions*.

Museums of World Religions Charles Orzech, 2020-05-14 Critically examining the notion of world religions, Charles D. Orzech compares five purpose-built museums of world religions and their online extensions. Inspired by the 19th and 20th-century discipline of comparative religion, these museums seek to promote religious tolerance by representing religious diversity and by arguing for underlying kinship among religions. From locations in Europe (Marburg, Glasgow, and St. Petersburg) to North America (Quebec) to Asia (Taipei), each museum advances a particular cultural history. This book shows how the curation of the objects they contain shapes public perceptions of religion, giving material form to the discourses about religion and world religions. Raising important questions about religion and secularity, museum displays and religious piety, *Museums of World Religions* questions the ideology that informs these museums. Building on recent anthropological work on the agency of religious objects, the author critiques these museums and suggests new approaches to displaying the matter of religion.
