Blood Deborah Masson, 2020-11-19 DI Eve Hunter is back in the edge of your seat new detective thriller from Deborah Masson winning author of the Bloody Scotland Crime Debut of the Year 2020 A young man the son of an influential businessman is discovered dead in his central Aberdeen apartment Hours later a teenaged girl with no identification is found hanged in a suspected suicide As DI Eve Hunter and her team investigate the two cases they find themselves in a tug of war between privilege and poverty between the elite and those on the fringes of society Then an unexpected breakthrough leads them to the shocking conclusion that those in power have been at the top for too long and now someone is going to desperate lengths to bring them down Can they stop someone who is dead set on revenge no matter the cost READERS ARE OBSESSED WITH THE DI EVE HUNTER SERIES One of the best books I ve ever read I loved DI Eve Hunter and her team Without a doubt the best police procedural I have read in a long time I cannot wait to see what else is to come in the DI Eve Hunter series You won t want to stop reading this addictive crime novel Fantastic characters that you ll fall in love with I really couldn t put this book down Can t wait for the next one and the next one and the next one Out For Blood has everything you need in a crime thriller and more Rebecca Bradley DI Eve Hunter is truly a force to be reckoned with David Jackson This is first class crime fiction Marion Todd Not to be missed edge of the seat stuff from a genuine rising star Denzil Meyrick

Data And Society Paul Beynon-davies, 2021-07-27 Most literature thinks of the relationship between data and society as additive meaning that data and society are seen as two separate sets of things but which overlap to form an intersection The literature then goes off to unpack the intersection of the two circles and partners the term data in this manner with terms descriptive of the domain of society ownership control surveillance and privacy to name but a few Within this book we want to promote an alternative viewpoint of the relationship between data and society Rather than explaining how data fits with or contributes to some burning societal issues we want to explain how data is constitutive of many such issues The term constitutive is used here in the sense of data having power to institute establish or enact society Our viewpoint means that if you are to properly understand the constitutive nature of data you must start from first principles and closely examine the nature of data itself You must also focus on the mechanics of data how data is represented and articulated in records or more generally in data structures Our aim in doing this is to examine the place of data structures across cultures and societies In doing so we hope to better understand why we as humans make records In doing this we can also better understand some of the unintended consequences of the use of records which particularly plague us in the modern world
