Mission-Oriented Sensor Networks and Systems: Art and Science Habib M. Ammari, 2019-09-18 This book discusses topics in mission oriented sensor networks and systems research and practice enabling readers to understand the major technical and application challenges of these networks with respect to their architectures protocols algorithms and application design It also presents novel theoretical and practical ideas which have led to the development of solid foundations for the design analysis and implementation of energy efficient reliable and secure mission oriented sensor network applications Covering various topics including sensor node architecture sensor deployment mobile coverage mission assignment detection localization tracking data dissemination data fusion topology control geometric routing location privacy secure communication and cryptograph it is a valuable resource for computer scientists researchers and practitioners in academia and industry

Innovations in Smart Cities Applications Volume 8 Mohamed Ben Ahmed, Boudhir Anouar Abdelhakim, İsmail Rakıp Karaş, Kaoutar Ben Ahmed, 2025-05-06 This book discovers the latest technological advances that are transforming our cities into smart and connected spaces This book presents cutting edge research and inspiring case studies on urban management smart mobility and environmental sustainability With an innovative approach it explores concrete solutions and future perspectives to improve the quality of urban life Intended for researchers professionals and decision makers this book is an essential resource to understand and participate in the transformation of smart cities

RFID Security and Privacy Yingjiu Li, Robert Deng, Elisa Bertino, 2022-06-01 As a fast

evolving new area RFID security and privacy has quickly grown from a hungry infant to an energetic teenager during recent years Much of the exciting development in this area is summarized in this book with rigorous analyses and insightful comments In particular a systematic overview on RFID security and privacy is provided at both the physical and network level At the physical level RFID security means that RFID devices should be identified with assurance in the presence of attacks while RFID privacy requires that RFID devices should be identified without disclosure of any valuable information about the devices At the network level RFID security means that RFID information should be shared with authorized parties only while RFID privacy further requires that RFID information should be shared without disclosure of valuable RFID information to any honest but curious server which coordinates information sharing Not only does this book summarize the past but it also provides new research results especially at the network level Several future directions are envisioned to be promising for advancing the research in this area

Embark on a breathtaking journey through nature and adventure with Explore with is mesmerizing ebook, **Workshop Technology By Raghwanshi Vol 1** . This immersive experience, available for download in a PDF format (*), transports you to the heart of natural marvels and thrilling escapades. Download now and let the adventure begin!
